Assembly Steps

I

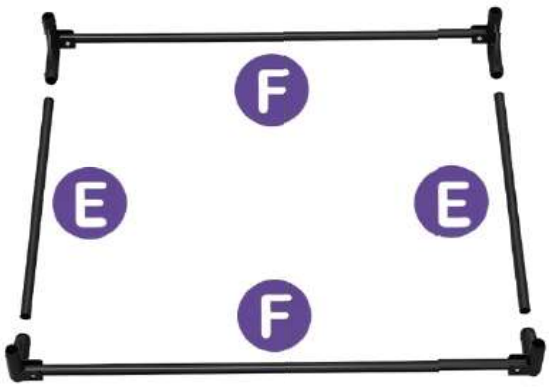

Tip : The "notch" of F is faces upwards.

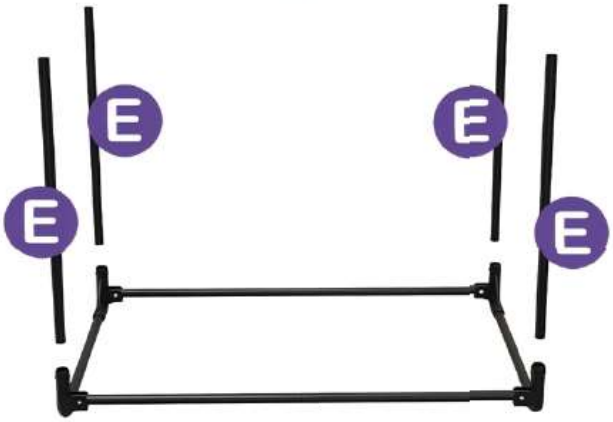

Expand F, adjust the "notch" of F to the same direction, and place it as shown in the picture.

II

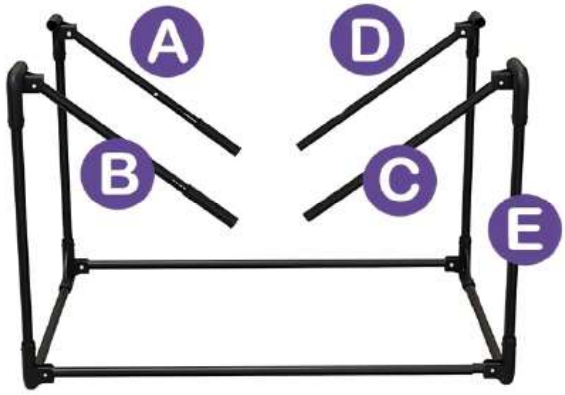

Connect F and E.

III

Insert 4 E's into the installed step II.

IV

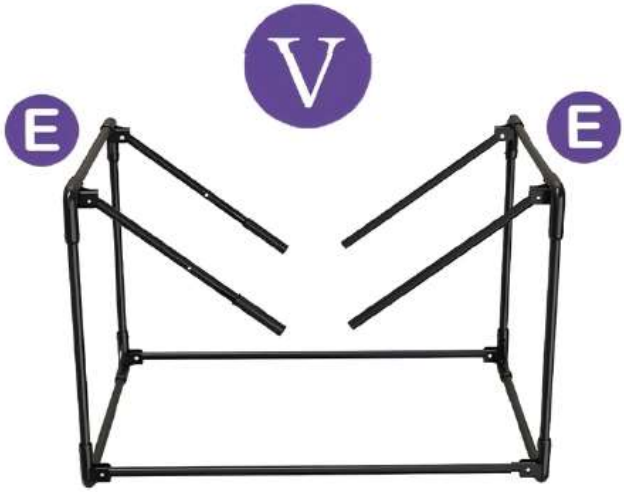

Tip:
The "notch" faces downwards

Connect A, B, C, D to E.

V

Connect E to the other end of A, B, C, and D.

VI

Folding assembled frame.

VII

Tip:
Top face include two handles on both sides.

Open the zipper on the top face. Place the folded frame into mesh bag G and align the bottom corners of the frame with those of the mesh bag.

VIII

NOTE:
The assembly
may feel slightly tight; This is normal ***and is to ensure that the crate cover stavs Tlat and best appearance.***

Align the feet at the top and bottom of the frame with the corners of mesh bag G.

IX

Connect the connecting rod, place the mat in, and the installation is complete!

X

It has a long shoulder strap, which you can use to carry it or to secure the dog cage to your car seat.

FOLD DOWN & SET UP
