### Estimated time for assembly

25:00

### What you need

- Some of your favourite bubbly or your preferred relaxant
- Use the packaging carton as a working surface to prevent product damage during assembly
- Phillips Screwdriver

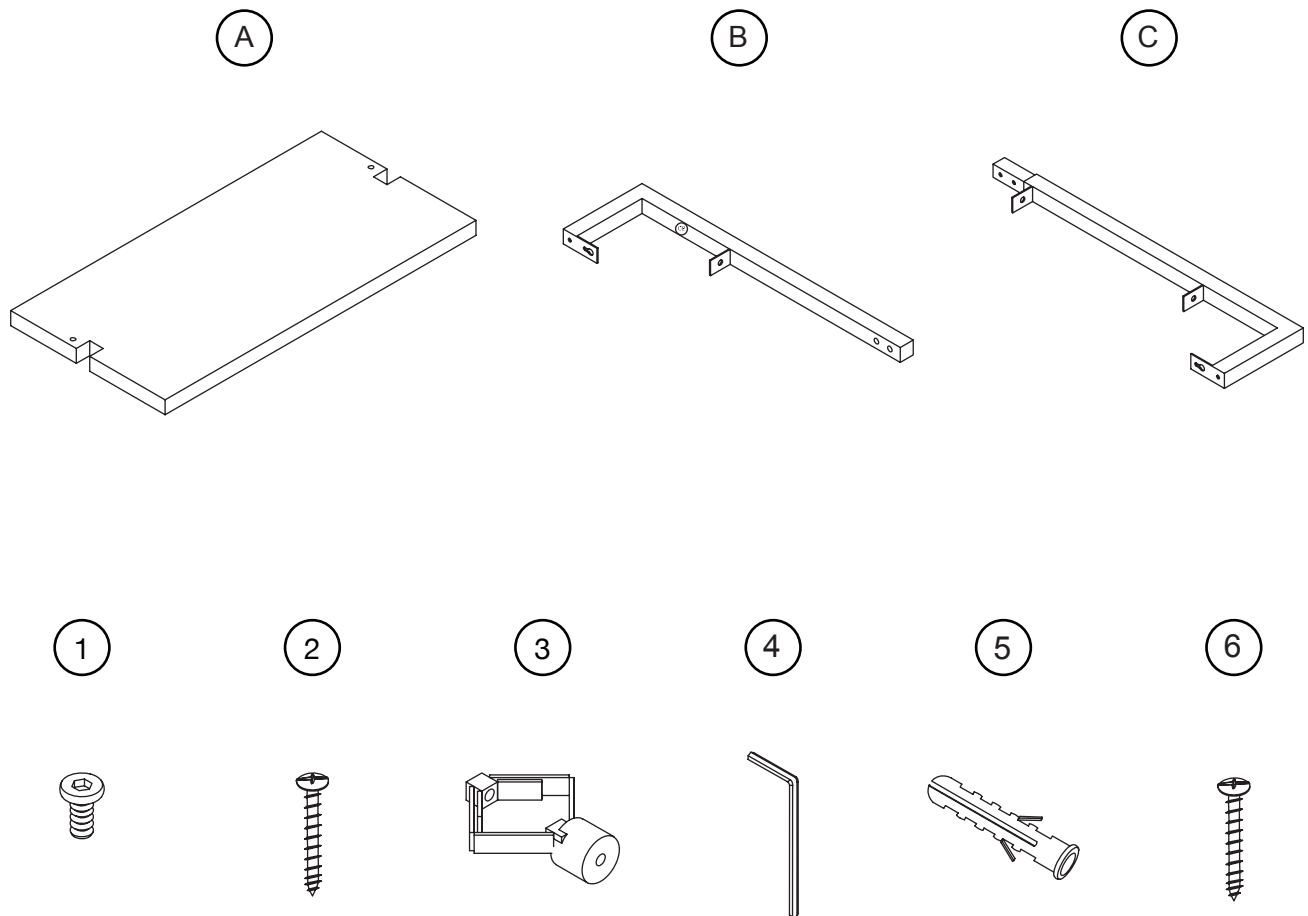

### Weight Limitation

75

lbs per shelf

# The goods

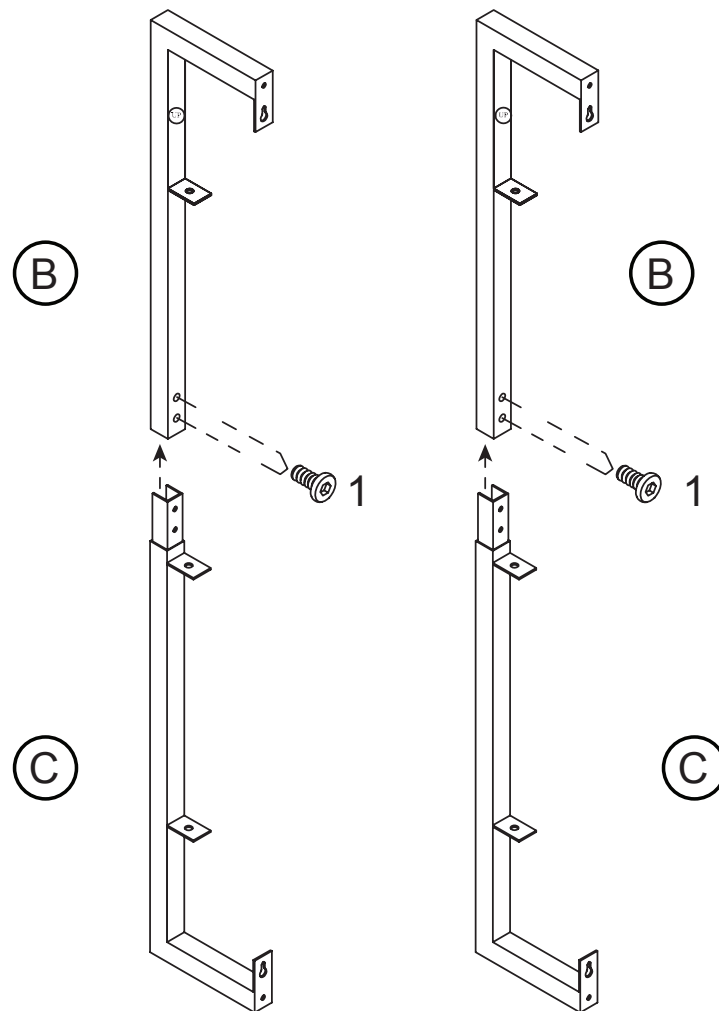

## IMPORTANT

1. Do not tighten bolts / screws completely until all bolts / screws are lined up and inserted into holes.
2. Do not over tighten screws and bolts to avoid stripping.
3. Please use hand tools to assemble this product. Do not use power tools.

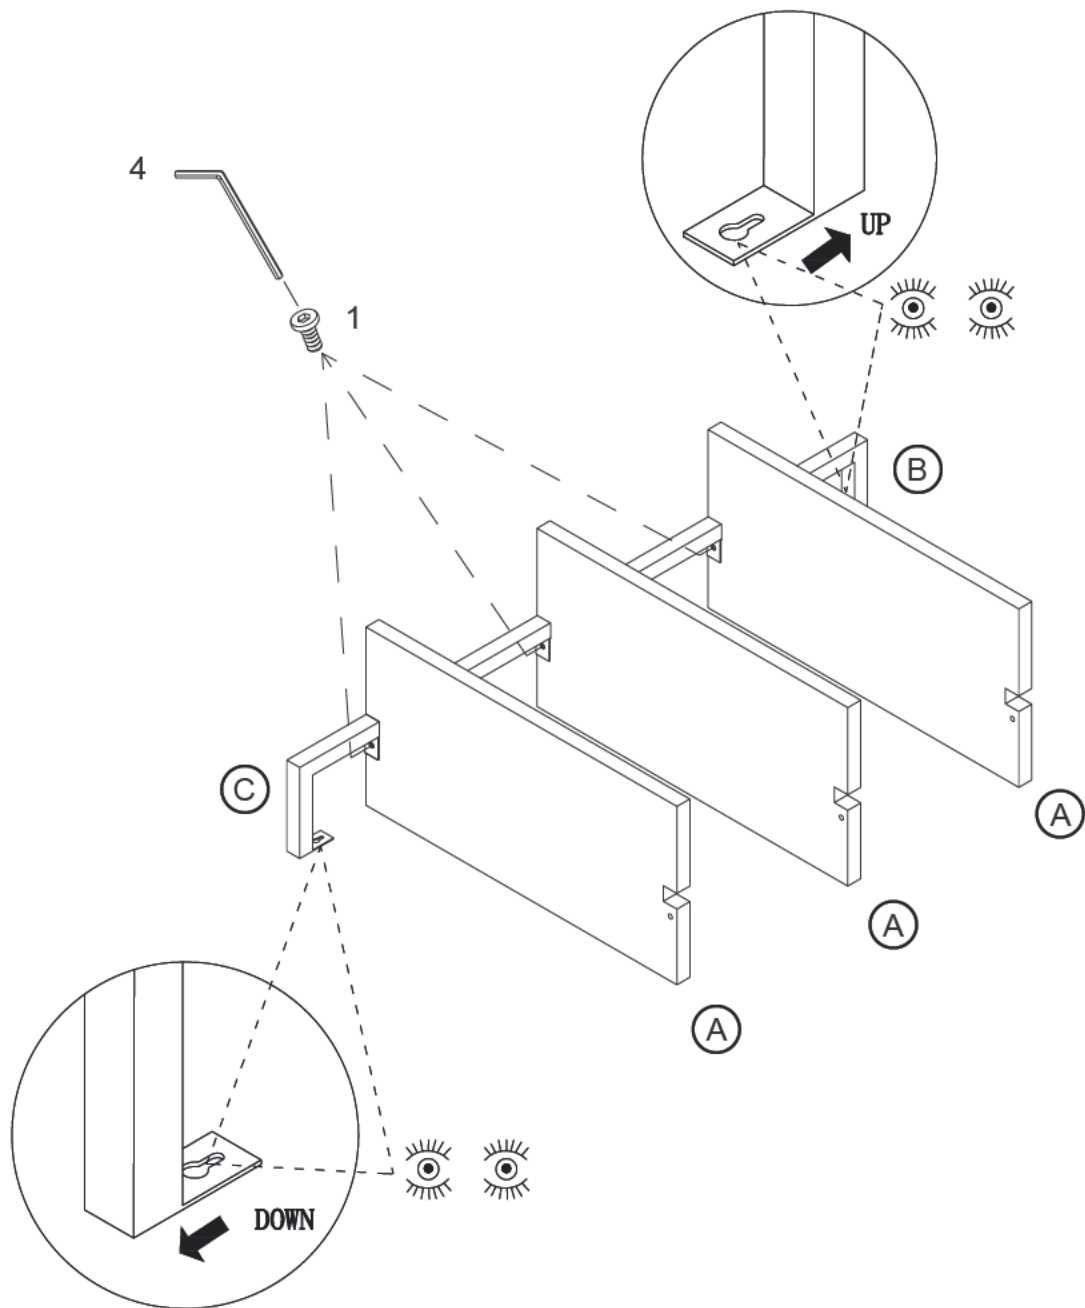

# Step 1

It's as easy as it looks! Assemble the side supports.

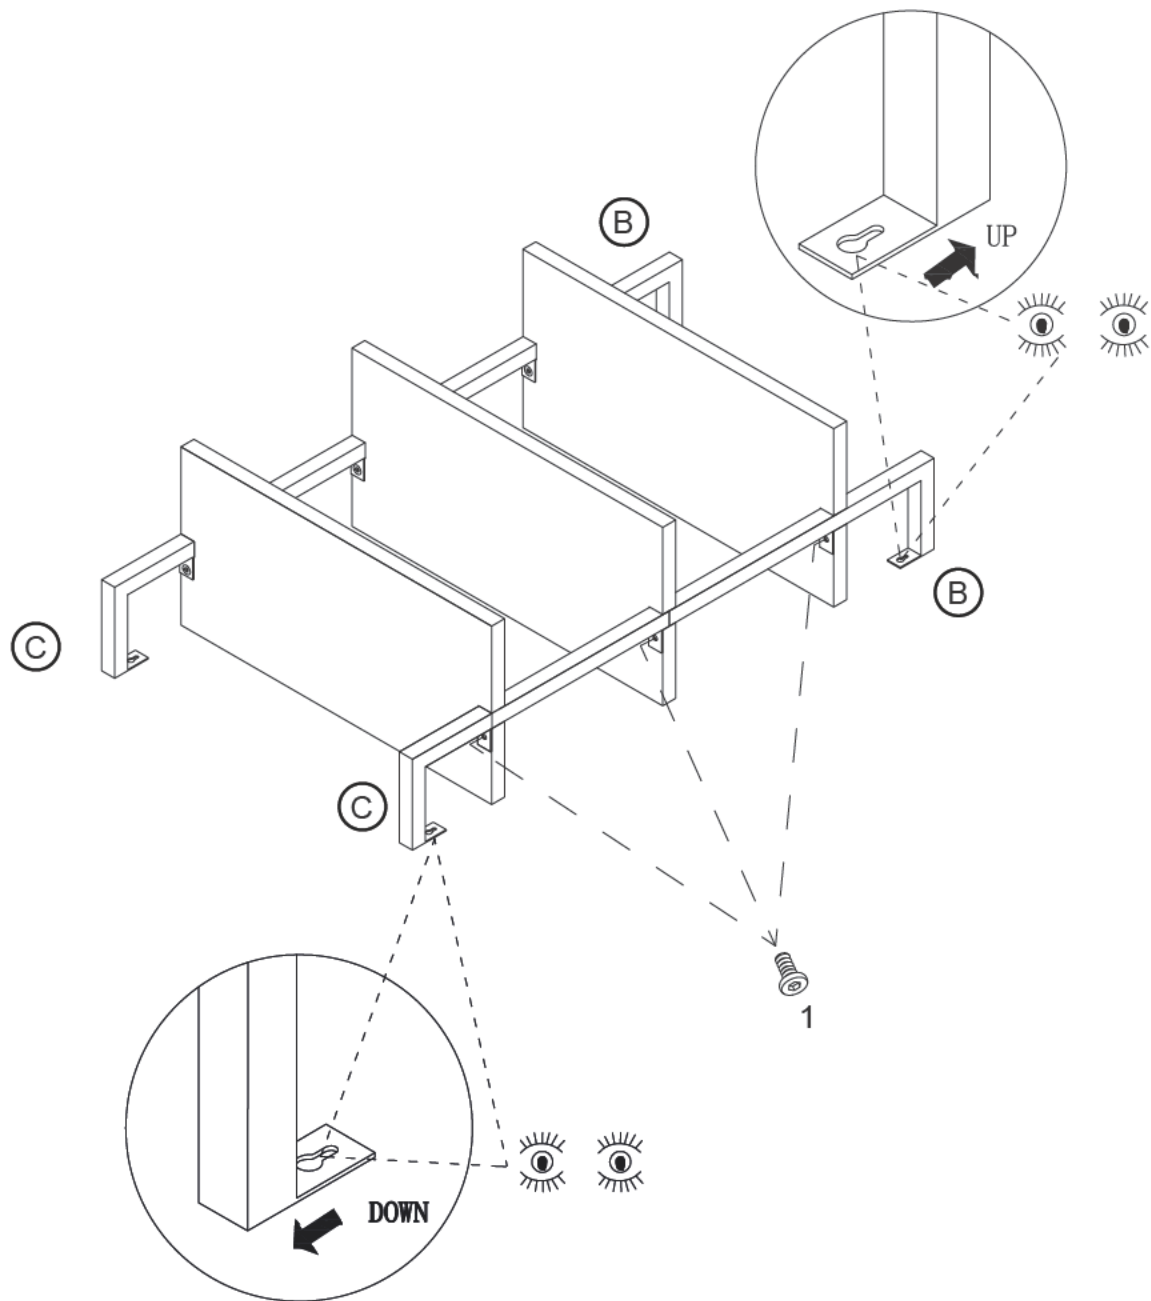

# Step 2

Let's get those shelves in place! Consider this your workout of the day.

# Step 3

Attach the second side supports to the shelves. You're halfway there!

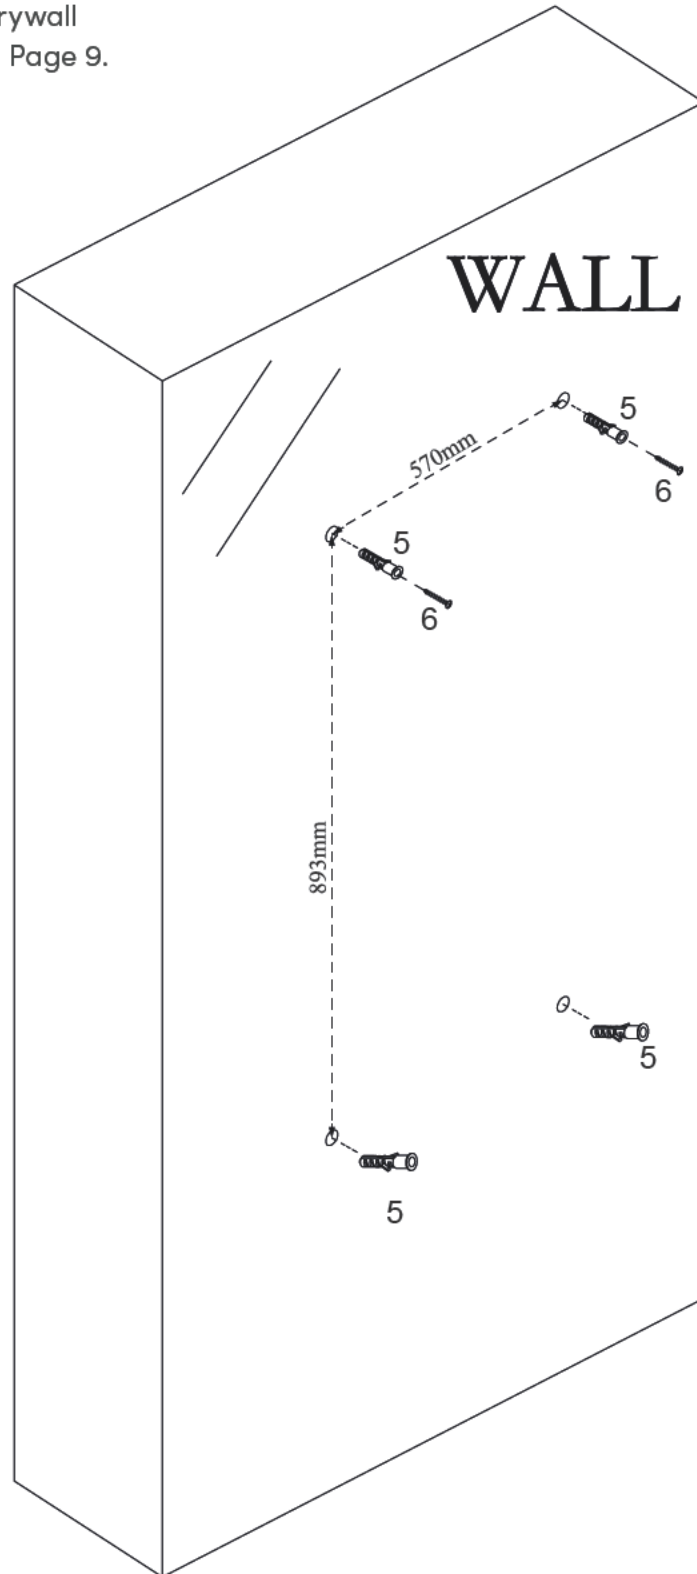

# Step 4

## Non-drywall Application

Let's get this bookshelf attached to your wall!

Note: the following steps are for non-drywall application. If you have drywall, skip to Page 9.

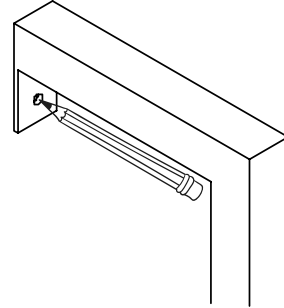

**Tip from a friend to a friend:** Tighten to about 90% and do not attach bottom screws into non-drywall anchors until the very last step!

# Step 4 (cont.)

## Non-drywall Application

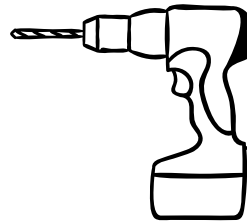

### Mark it

Chose your desired location on the wall, have your friend hold the bookcase in place and use a pencil to mark where the anchor will go.

### 1/4" Drill bit

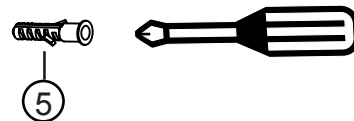

Move bookcase to the side and following the mark you just made. With a 1/4" drill bit, drill 4 holes into the wall.

### Insert the anchors

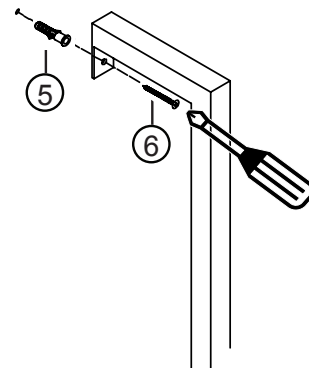

Following the mark you just made. Using your Phillips head screw driver, screw the plastic anchors into the holes until they are flush to the wall.

*If you're feeling strong, just go ahead and push it in.*

### All about the angle

Insert 1 screw through each metal bracket and into the anchor. Tilt your Phillips head screwdriver, and secure but do not over tighten.

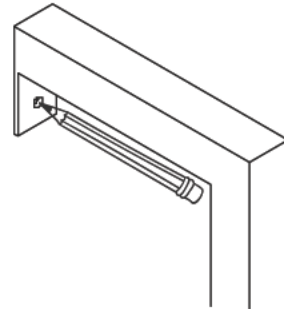

# Step 4 (cont.) Drywall Application

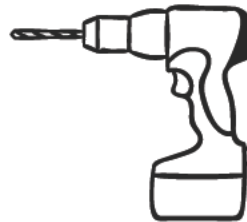

## Mark it

Chose your desired location on the wall, have your friend hold the bookcase in place and use a pencil to mark where the anchor will go.

## 5/16" Drill bit

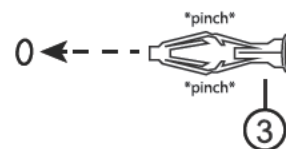

Move bookcase to the side and following the mark you just made. With a 5/16" drill bit, drill 4 holes into the wall.

## Insert the anchors

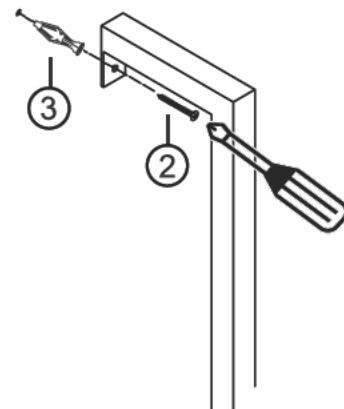

Go ahead and tap the wall anchors into place in the new holes that you just drilled.

*If you're feeling strong, just go ahead and push it in.*

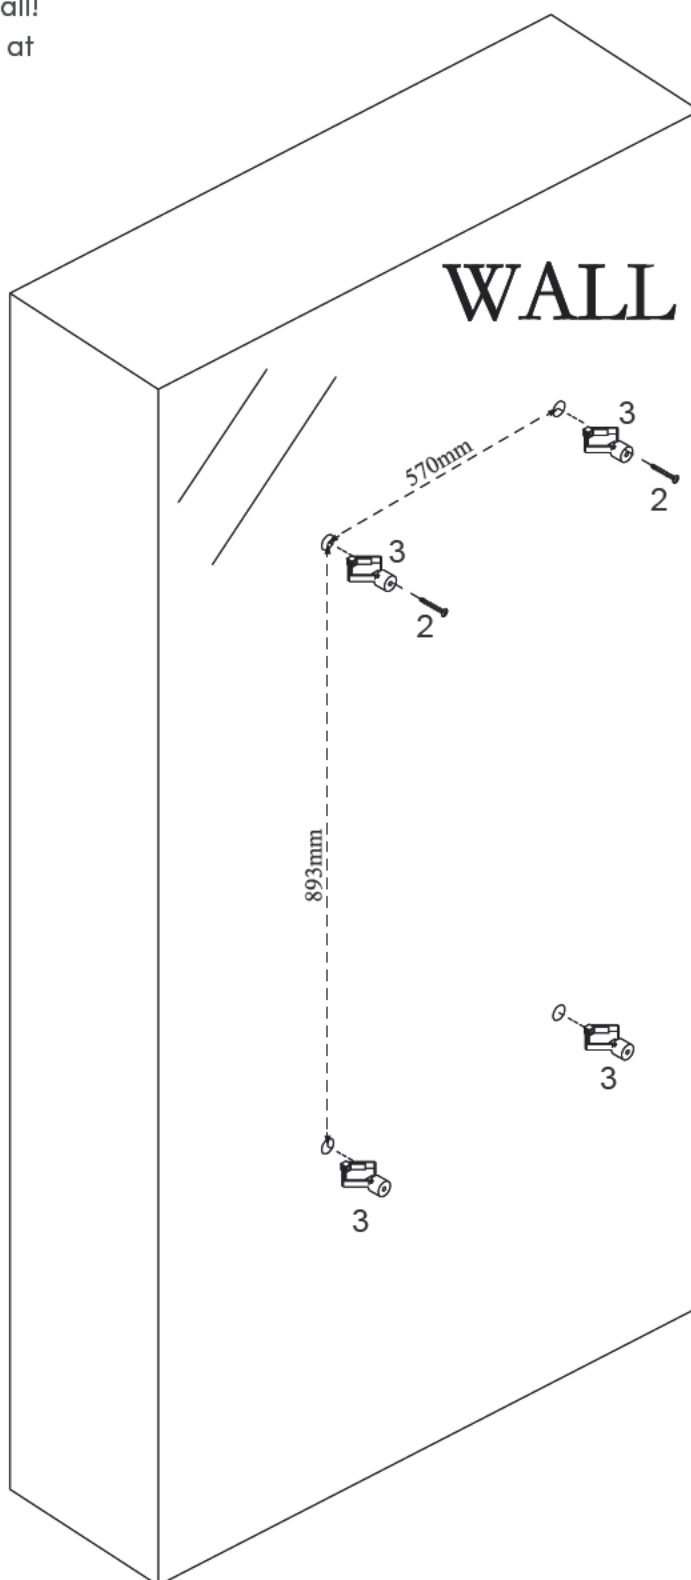

## All about the angle

Insert 1 screw through each metal bracket and into the drywall anchor. Tilt your Phillips head screwdriver, and secure but do not over tighten.

# Step 4 (cont.) Drywall Application

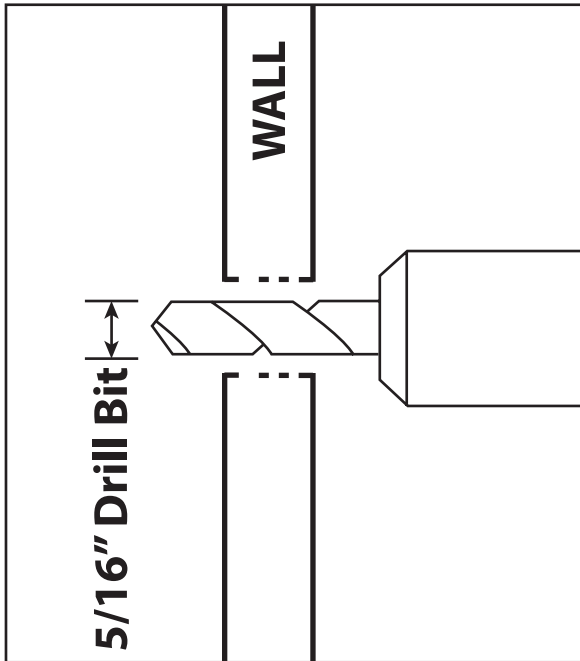

Let's get this bookshelf attached to your wall!  
Flip over to the next page for a closer look at  
how to use drywall anchors!

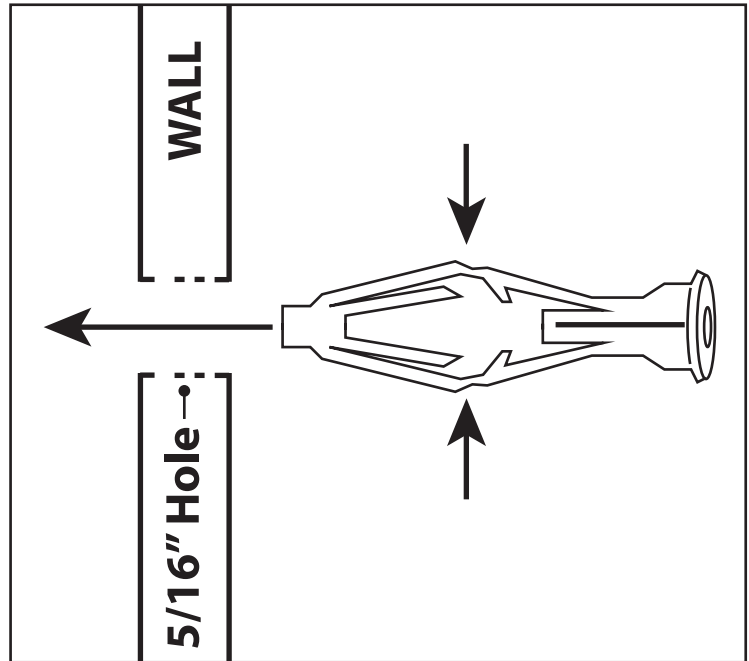

**Tip from a friend to a friend:** Tighten to about 90% and do not attach bottom screws into drywall anchors until the very last step!

## Step 4 (cont.)

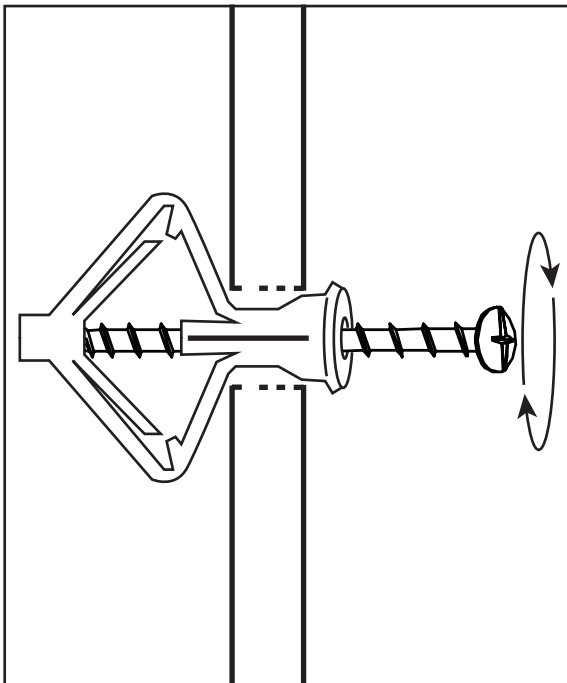

### How to use drywall anchors

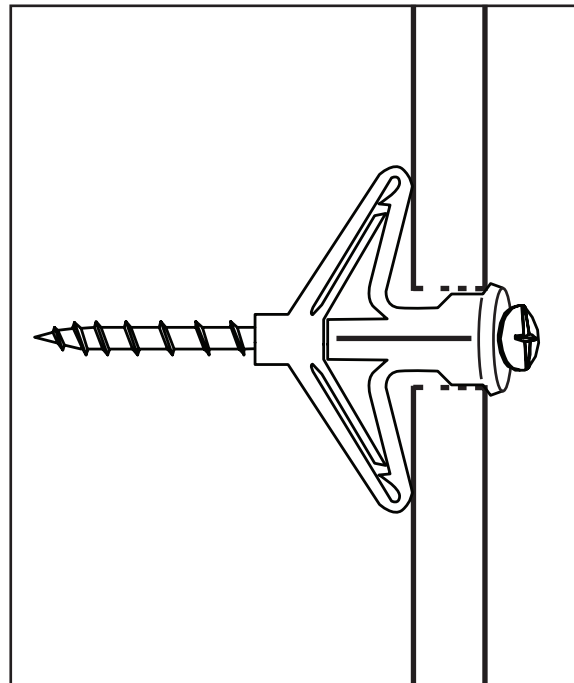

1. Drill hole with 5/16" bit

2. Pinch and insert

3. Begin tightening

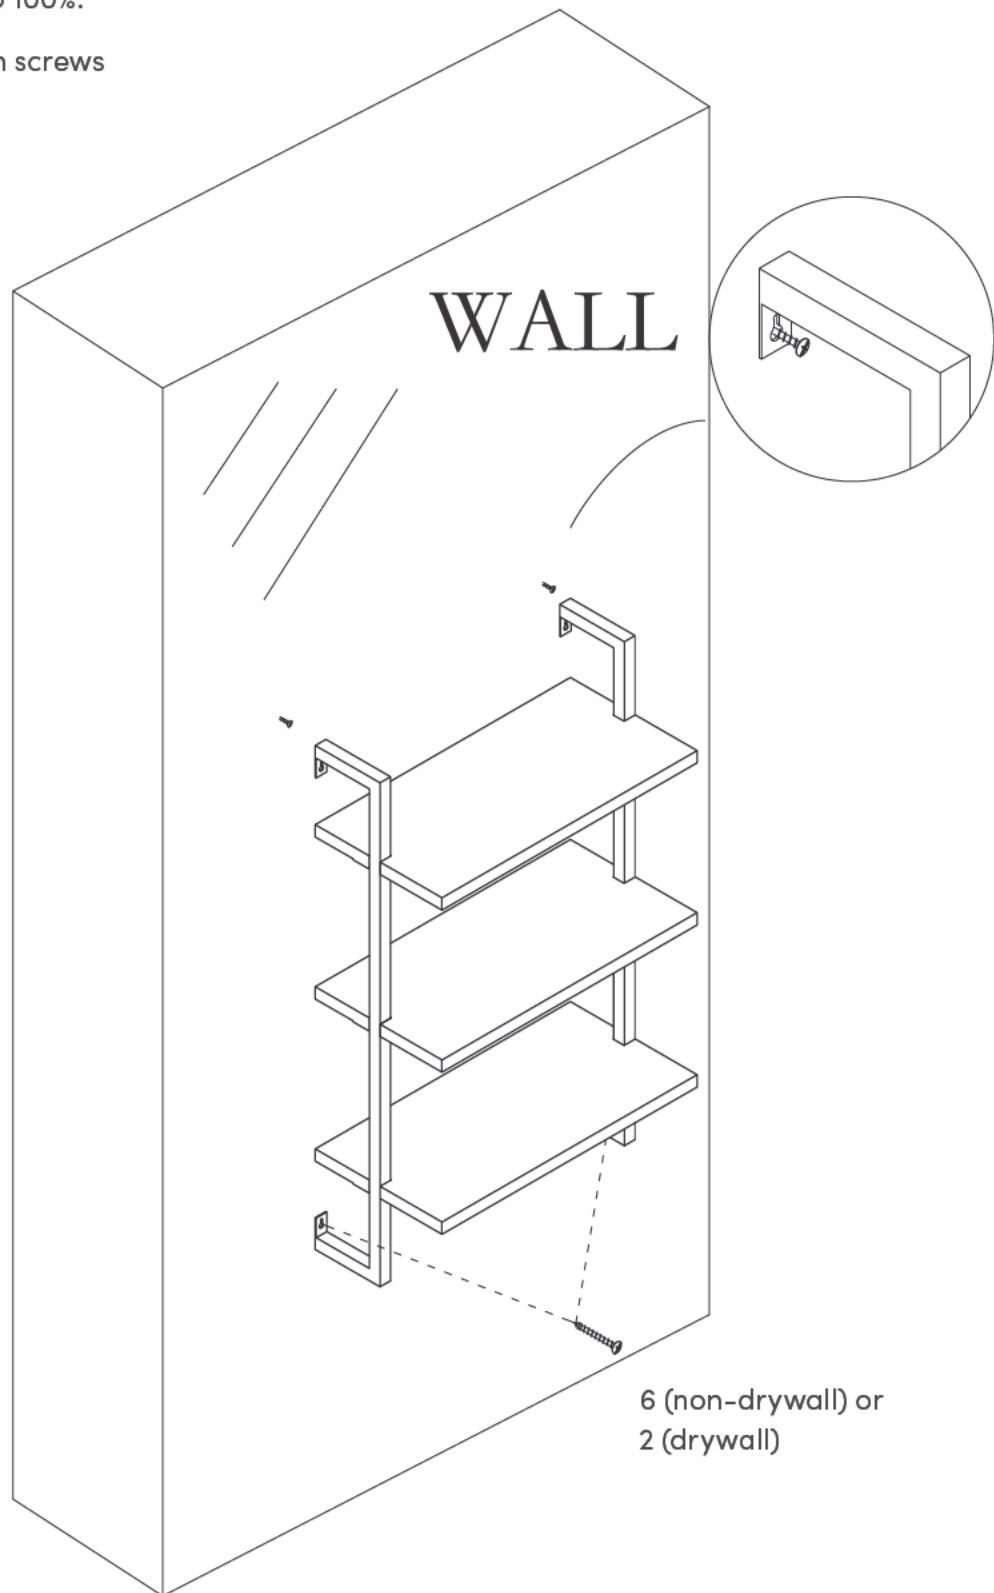

4. Tighten to 100%

# Step 5

The hard part is over! Hang your bookshelf on the top screws and tighten to 100%.

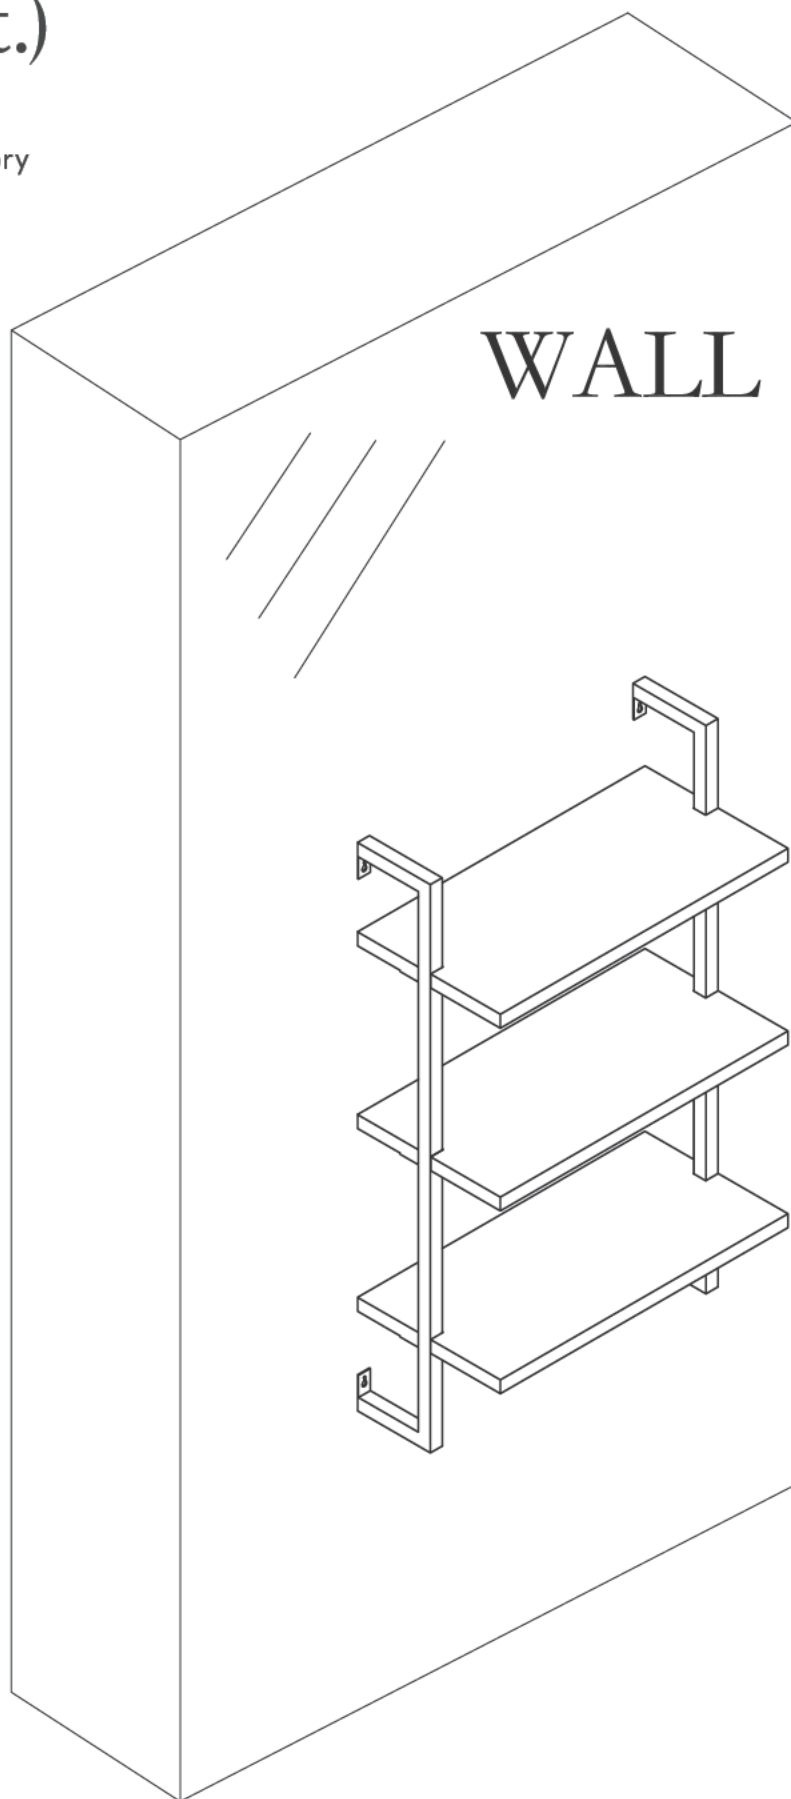

Lastly, tighten bottom screws to secure.

# Step 5 (cont.)

*\*Cue party music\**

You did it! Order a celebratory  
pizza, you deserve it!

You

We really don't want you to go through the hassle of re-packaging your item and sending it back, because let's be honest...nobody has time for that.

# Safety first, fun later

We want your Floating Bookcase to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screws every 2 months.

## Safe use of this product starts with you.

Use this bookcase responsibly with the primary concern for your safety. Follow assembly instructions carefully and inspect product upon receipt and each use.

and its parent companies cannot be held legally responsible for any injuries or death resulted from failure to follow instructions or improper use of this product.

## Do not modify the structure of this product in any way.

Our products have been tested to meet specific safety measures as they were originally intended to be sold. Any modifications will present the risk of creating significant safety issues which will not be responsible for.
