## Installation Notes

Install this product according to the installation guide.

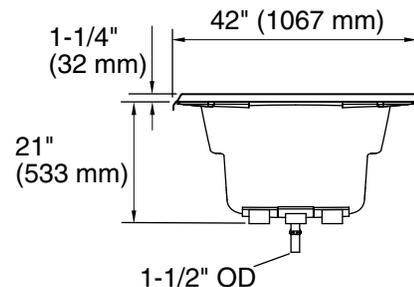

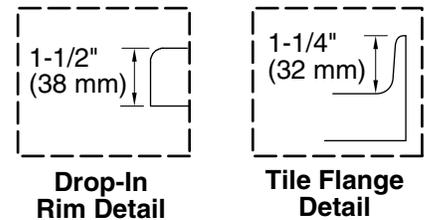

Floor support under the bath must provide for a minimum of 38 lbs/square foot (182 kg/square meter) loading.

If installing a rim-mount faucet, make sure there is no interference with the drain overflow before drilling any holes. Consult local and national codes for minimum air gap requirements if installing a spout on the faucet deck.

No change in measurements if connected with drain illustrated. (K-11677)
