Finish: Contemporary Gold Leaf

Materials: WROUGHT IRON/COMPOSITE

Item Weight: 17 lb

Number of Lights: 1

Watts per Socket / Item: 17 / 17

Cord: 13' Gold

Designed by Clarence Mallari, the Iberia Chandelier is one of the fixtures in our lineup that is fitted with integrated LED technology. But this engineering savvy hasn't disrupted the gracefulness of the gold chandelier. The way he created the bell shapes in graduating sizes is a design detail of note. The wrought iron in a contemporary gold leaf finish gleams as does the diffuser, which is made of composite.
