

THEODORE ALEXANDER

Venture 1

D2523S50456-4061

Venture 1 is a large-scale abstract work that focuses on the element of shape. While two geometric shapes in maroon and teal pop out to the viewer, the composition features several amorphous shapes that lack definition and present a more fluid interpretation. The work is also an homage to Surrealism with hand-drawn images in the upper portion of the picture plane and the dreamlike wash of textured pale color that covers the canvas. A divergent color palette in neon coral, crimson, sea foam green, and cream adds weight to the surrealist feel of the work.

Venture 1 invites the unconscious mind of the viewer to liberate the imagination and explore the dreams concealed within. Part of the carefully curated ART by TA Collection.
