CEILING LIGHT USER MANUAL

COMPONENTS AND PARTS

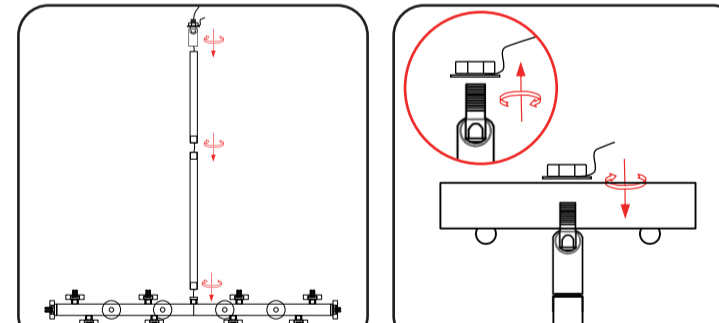

- Read instructions carefully and turn electricity off at main circuitbreaker panel before installation.
- Before installation, make sure all parts are included. If any part is missing or damaged, do not attempt to assemble, install or operate the product.

- 1 -

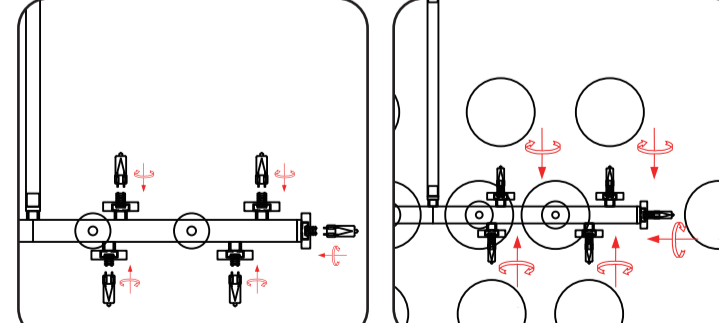

INSTALLATION STEPS

Step1: Installation of suspension tubes

Select the suspension tube based on your desired hanging height. Place the suspension short tube at the top, thread it through each wire one by one, then tighten the threads to secure the assembly.

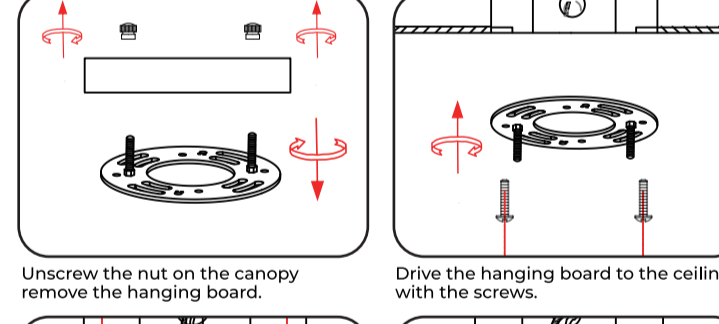

Step2: Installation of lamp body

Unpack the included light bulb and insert the G9 bulb into the socket to complete installation.

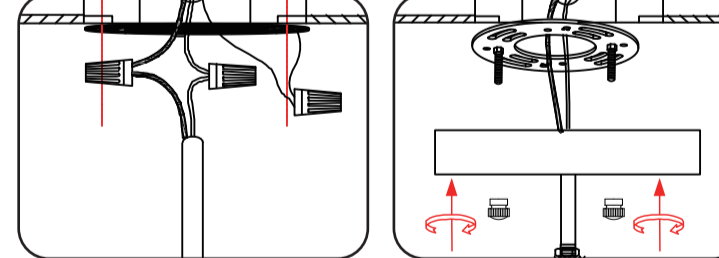

Slide the glass ball over the bulb, then screw it into the lamp body.

Step3: Installation of Chandeliers

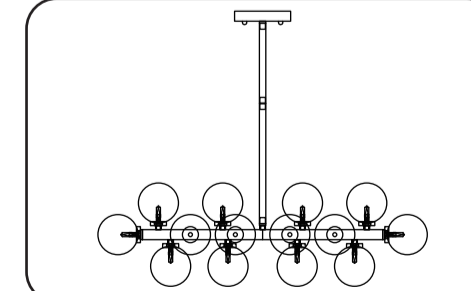

Unscrew the nut on the canopy, remove the hanging board.

Drive the hanging board to the ceiling with the screws.

Connect the wires from the chandelier to the wires from the ceiling.

Align the canopy with the screws on the hanging board and screw in the nuts.
