Step1: Install Drawer Face Panel (A) and Drawer Body (B) and ensure that five clips on the panel to insert the Drawer Body (B) and fold the snap joint.

Step2:Install Front Guard Panel(C)and use the screwdriver to jack up  
four limitswitch buckles on Front Guard Panel(C)

Step3:Install the Rear Guard Pabel(D)and ensure that the Rear Guard  
Pabel(D)is clipped into the Drawer Body (B) .

Step1:Open Folding Cabinet

Step2 : Install the Base Board (K) ; first of all,hold up the Base Board ( K )and the clip shall form a right angle.Ensure that it can be clipped into the card slot on the back and two sides of the Base Boards ( K ) can be clipped into the side plates.

Step3:Install Underside Frame (L) .Insertthe Underside Frame (L) to the left side (F)and the right side (G) and push clips on the left and right side frames into the Underside Frame.

Step4:Install four floor protectors(M).

Step 5 : Install Top Board (J) ; fold straight clips on the left side (F) , the right side (G),the left back (H) and the right back (I) .After it is clipped to the Top Board slot , flatten the clip . Ensure that the spring shaft of the Top Board linkage rod can be clipped into locking rods on the left side and the right side.

Step6:install drawers to the body of cabinet

Must step: A First slide the steel ball to the front of the cabinet's outer slide.

B: Insert the inside railway course on both sides of drawer on the outside railway course of cabinet at the same time. Two people must put the drawer flat and insert it slowly and synchronously. After inserting it to the end, pull it out slowly twice, the slide track works normally. If it works fails, please follow the slide track removal instructions, open it and reinstall it.
