Number of Lights: 1

Suggested Bulb: G Globe

Socket Type: E12

Watts per Socket / Item: 25/25

With the reflective quality of the metal in a polished nickel finish, and the transparency of its optic crystal tripod and finial, the Junia Wall Sconce is a revelation when it is seen from differing angles. Topped with an off-white shantung shade, the silver sconce has a single bulb. We also offer the Junia as a pendant in a brushed-brass finish.
