

Assembly Instruction

Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Light Source: (1) Medium Base 150W bulb Maximum.

Estimated Assembly Time: 20-30 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

Package Contents

STEP 1 – remove Fixture Hood, Shade and Styrofoam from Fixture Body

- Remove Fixture Hood by unlock Lock Screw from Fixture Body (G).
- Remove the Package Material and Shade inside the Fixture Body (G).

Figure 1

STEP 2 – Install Shade, Fixture Hood and Bulb to Fixture Body

- Pass Lock Washer (D), Fixture Hood and Water Proof Washer (B) over the Nipple (E), secure by threading Finial (B) onto Nipple (E). Hand tighten until snug.
- Insert bulb and screw snugly into place.
- Place Shade (G) into Fixture Body (F) properly. Then Place the Fixture Hood onto the top edge of the Fixture Body (F) and secure with Lock Screws. Tighten until snug.

Figure 2

STEP 3 – Drill Pilot Holes on Post

- Carefully fit the Post Fitter over the end of the Post (not supplied), making sure the Post Fitter is fully seated.
- Mark the drill point for the (3) Mounting Screws, using (3) Mounting Holes as reference. After marking hole locations, remove fixture from post and drill 1/16" pilot holes for screws.

Figure 3

STEP 4 - Wire Connections

- A. Use standard wire connectors (not included) to make all wire connections. (Connectors are not included with fixture.) Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

Figure 4

STEP 5 - Attach Fixture Body to Post

- A. Coat the top 1" of the Post with Clear Silicone Caulk (not supplied) and position the Post Fitter onto the Post. Be sure to seat it completely, aligning the holes in the Fitter with the 1/16" Pilot Holes drilled into the Post.
- B. Secure the Fixture to Post with (3) Mounting Screws (A).

Your fixture is now assembled and ready to use. Enjoy!
