PARTS

A*1

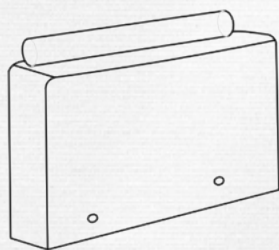

Seat cushion

B*1

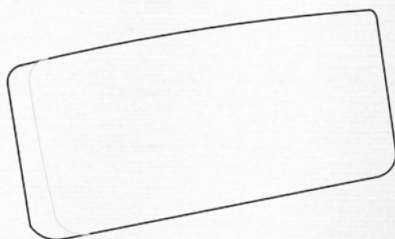

Seat frame

D*1

Backrest

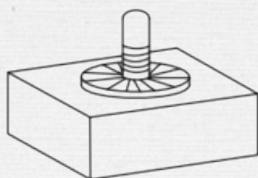

E*1

Back cushion

HARDWARE

H*4

Legs

I*4+1

Screws

J*1

Allen key

K*1

Metal hook

L*4+1

Flat washer

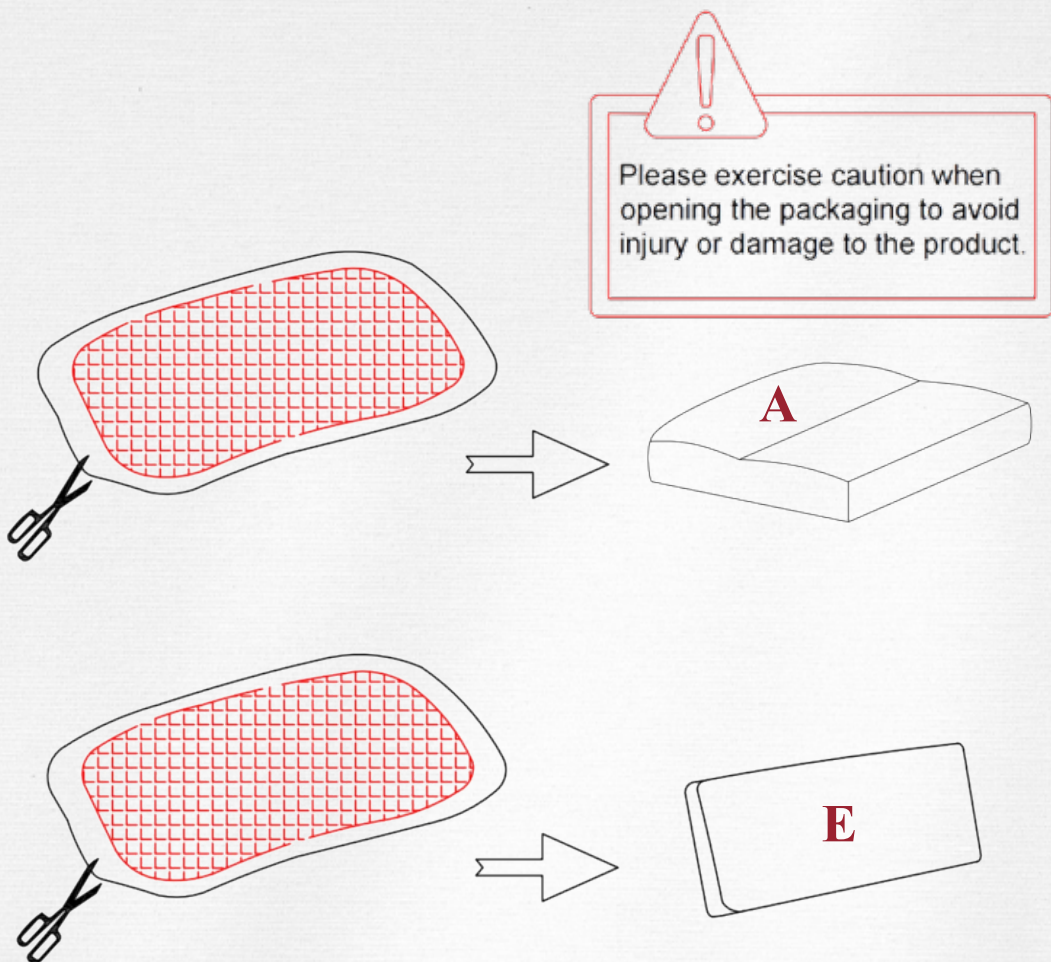

M*4+1

Spring washer

STEP1

Cut the plastic air compression bags, and take out the cushion (A&E). Let it recover to its original shape, the whole recovery process might take **48** hours, you may gently slap on it to speed up the process.

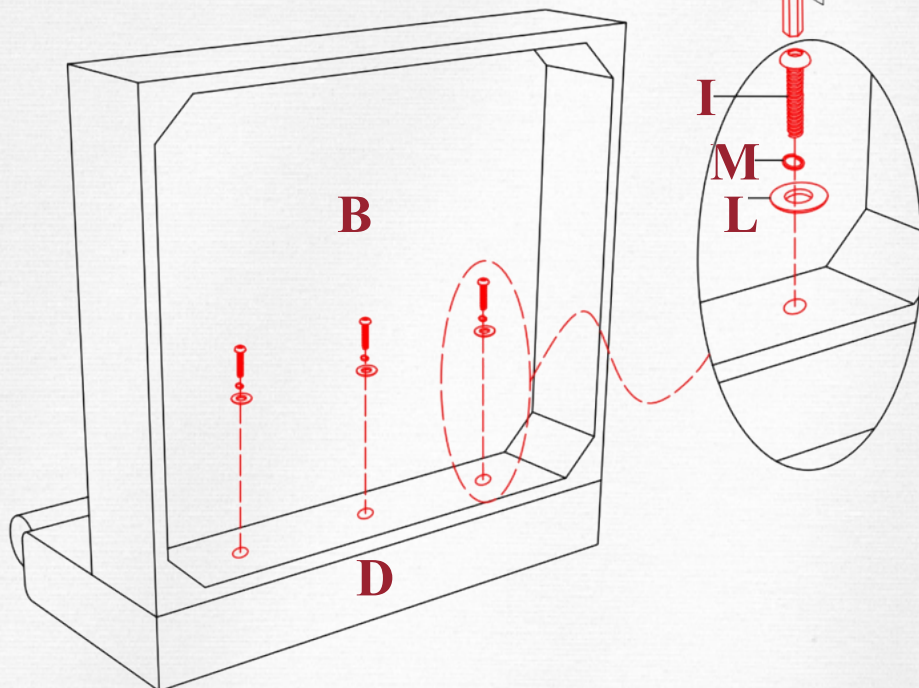

STEP 2

Place the sofa frame (B) on its side as shown, then align the screw holes on the backrest (D) with the holes on the sofa frame. Use the allen wrench (J) provided to tighten all the screws (I), make sure they are all correctly aligned before fully tighten the screws.

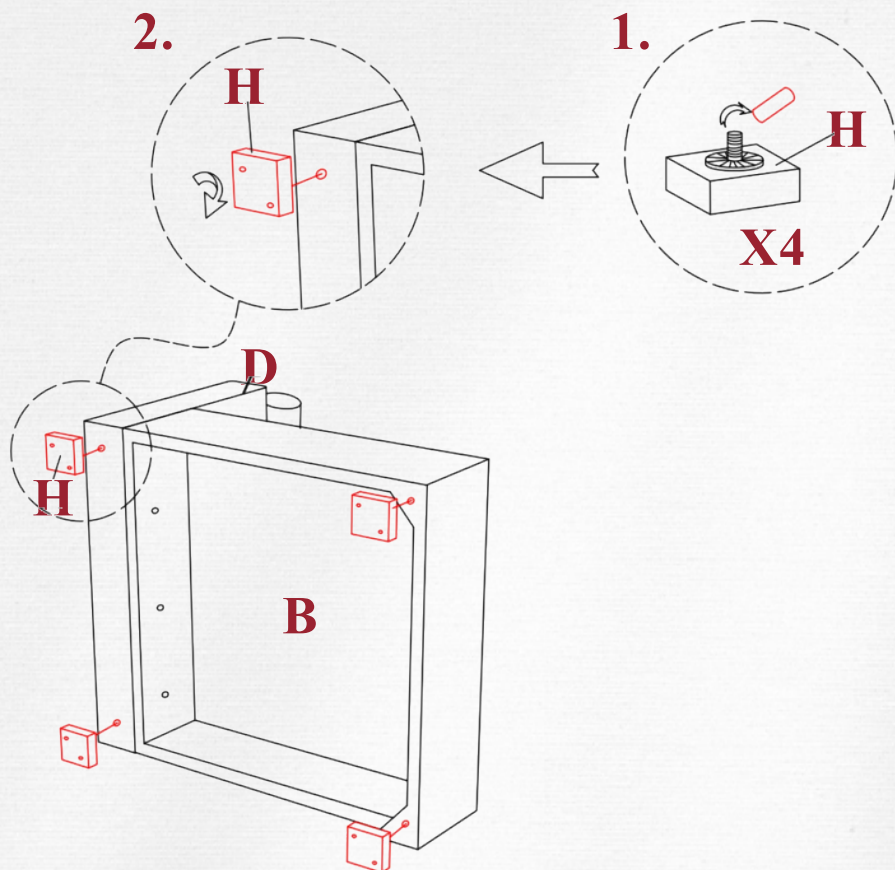

We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

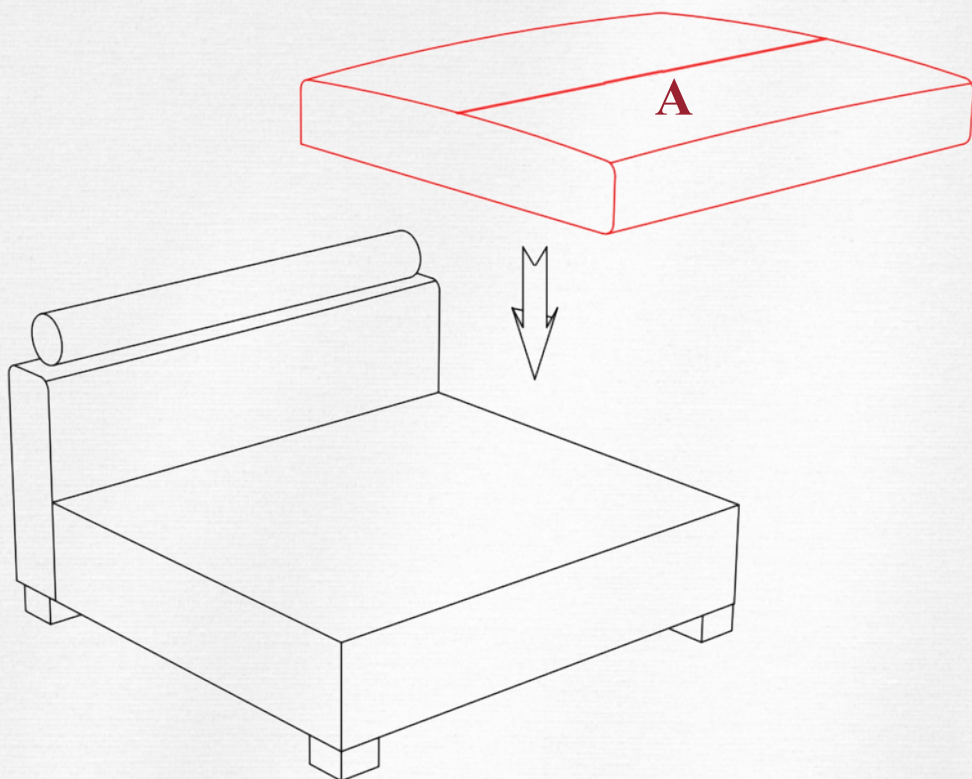

STEP 3

Remove the plastic caps off the sofa leg screws as shown, then twist in all the legs (H) into each corner of the sofa frame (B&D), make sure they are all tightened.

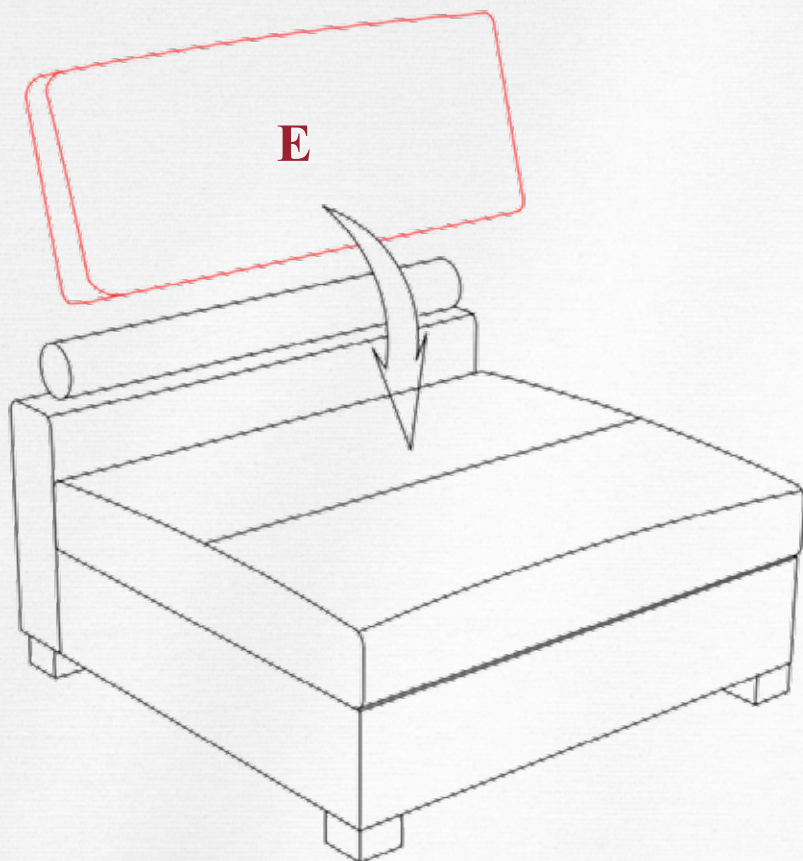

STEP 4

Place the seat cushion (A) onto the sofa as shown.

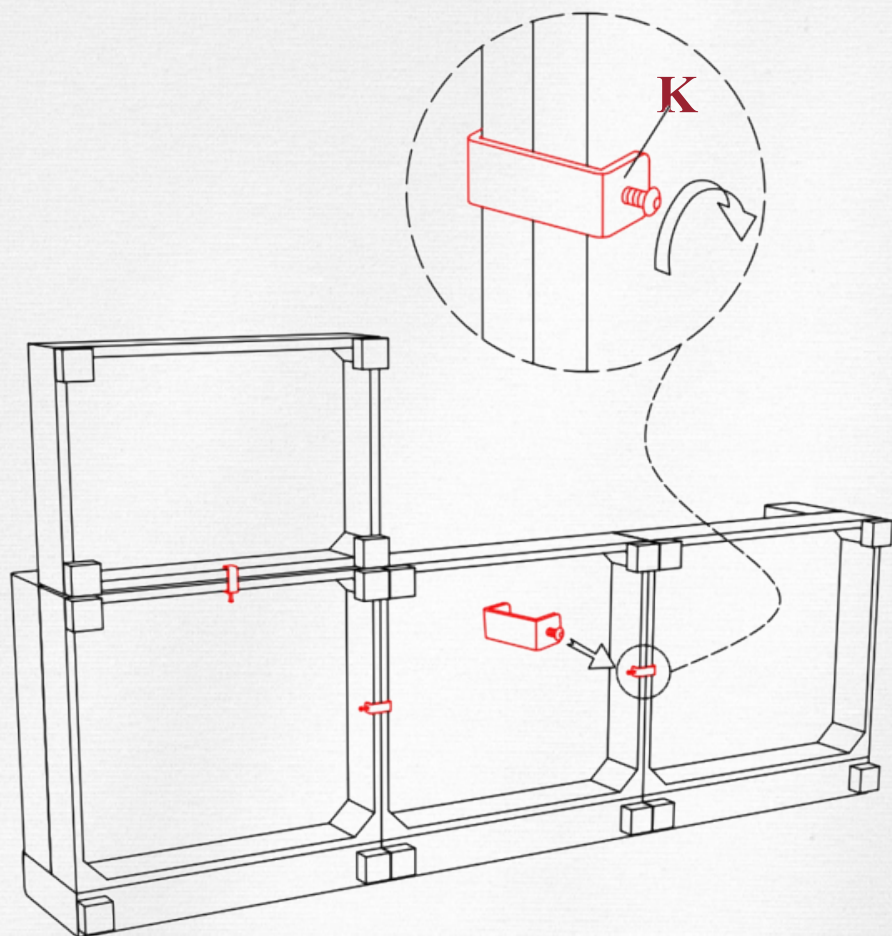

STEP 5

Place the back cushion (E) onto the sofa as shown.

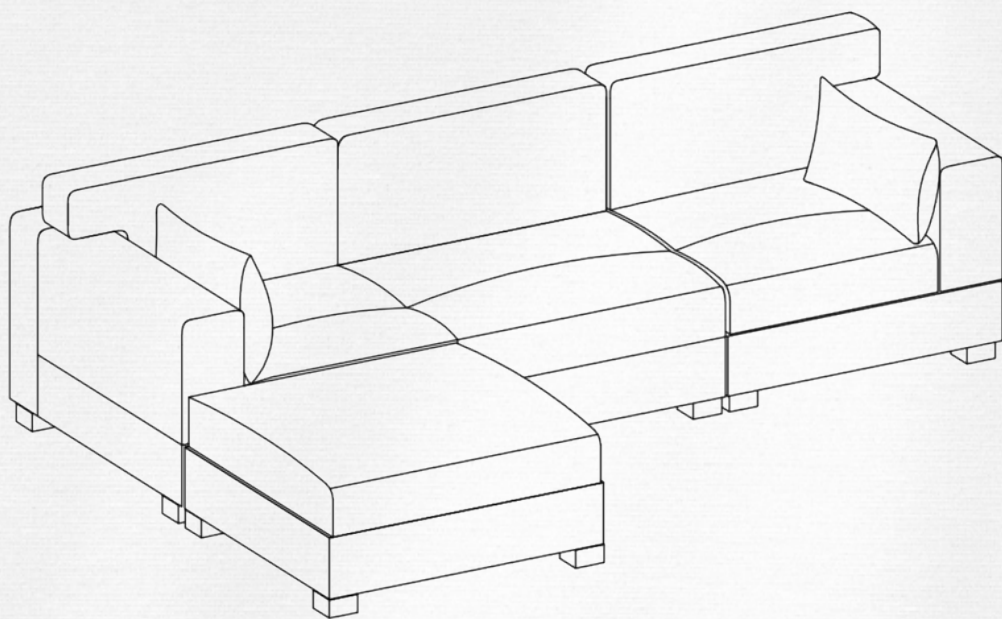

STEP 6

A metal connector (K) is included in the carton. It is not needed for a single section, but when combining sectional sofas, use the connector before inserting the headrest and prevent them from shifting during use.
