Troubleshooting

1. Cannot connect the lamp to DayBetter.

Check whether the lamp is powered on. Make sure your smartphone is in 4 ft to the device when connecting for the first time.

2. The lamp lost connection.

Check whether the device is powered on. Ensure the distance between the smartphone and the device does not exceed 10ft. Delete light in "My Device" page and reconnect the light.

3. What is the maximum number of devices I can connect via Bluetooth?

You can add up to 4 lights to a Bluetooth device group.

4. Can I use group control?

Yes. You can use "same model" group or "Bluetooth group".

5. How to pair and unpair remote to device?

*Long press ON key to pair the remote to a device within 10 seconds it is powered on.

*Long press OFF key to unpair all remotes from a device within 10 seconds it is powered on.

*After paired, a device can be controlled only by the paired remote. Useful when you have more than one device.

Information to User

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
