Odyssey Collection

Odyssey is a three dimensional and multi textural rug collection, inspired by NASA imagery. Distressed wool and natural silk are hand knotted to multiple organic heights. The collection pairs vintage textures with contemporary designs and colors. The Odyssey rug collection conveys a post-modern organic aesthetic.

Rapture Collection

The Rapture Collection is the single exception to Woven Concept's usual purist "hand-made only" philosophy. This machine-woven and hand-finished rug collection conveys the same look and feel of a hand-knotted rug; with a soft patina and wonderful pliability. The approachably priced Rapture Collection meets the highest standard of quality requirement that Woven Concepts represents.
