

## SmartHome WiFi Outlet Plug

.....

Perfect for controlling household appliances such as fans, air conditioners, coffee machines, and lamps from your smartphone.

Compatible with Alexa and Google Assistant.

Overview:

Aluratek's SmartHome WiFi Outlet Plug allows you to control your lights, electronics and small appliances from anywhere. Just plug in the Smart SmartHome WiFi Outlet Plug into your existing wall outlet, plug in your favorite devices and control with the eco4life smartphone app. The SmartHome WiFi Outlet Plug is perfect for fans, air conditioners, coffee machines, lamps or any small appliance. Enjoy the convenience of powering on your devices from virtually anywhere in the world. Want to cool down your house before you get home? Just open up the smartphone app, and power on your air conditioner, make a cup of coffee or turn on your entry hall light all before arriving home. You can program as many devices as you want and group them together within the application to power on at once. Compatible with Amazon Alexa or Google Assistant to power on or off any device of your choosing with just the sound of your voice.

Features:

- Control your small appliances from anywhere using the eco4life smartphone app
- Compatible with Amazon Alexa and Google Assistant for voice control
- Smart timers and scheduling allow you to program your outlet to turn on automatically
- No wires, no hassle set-up
- 1 year limited warranty
