ASSEMBLY INSTRUCTIONS CAMILLE DEMILUNE | RAW102

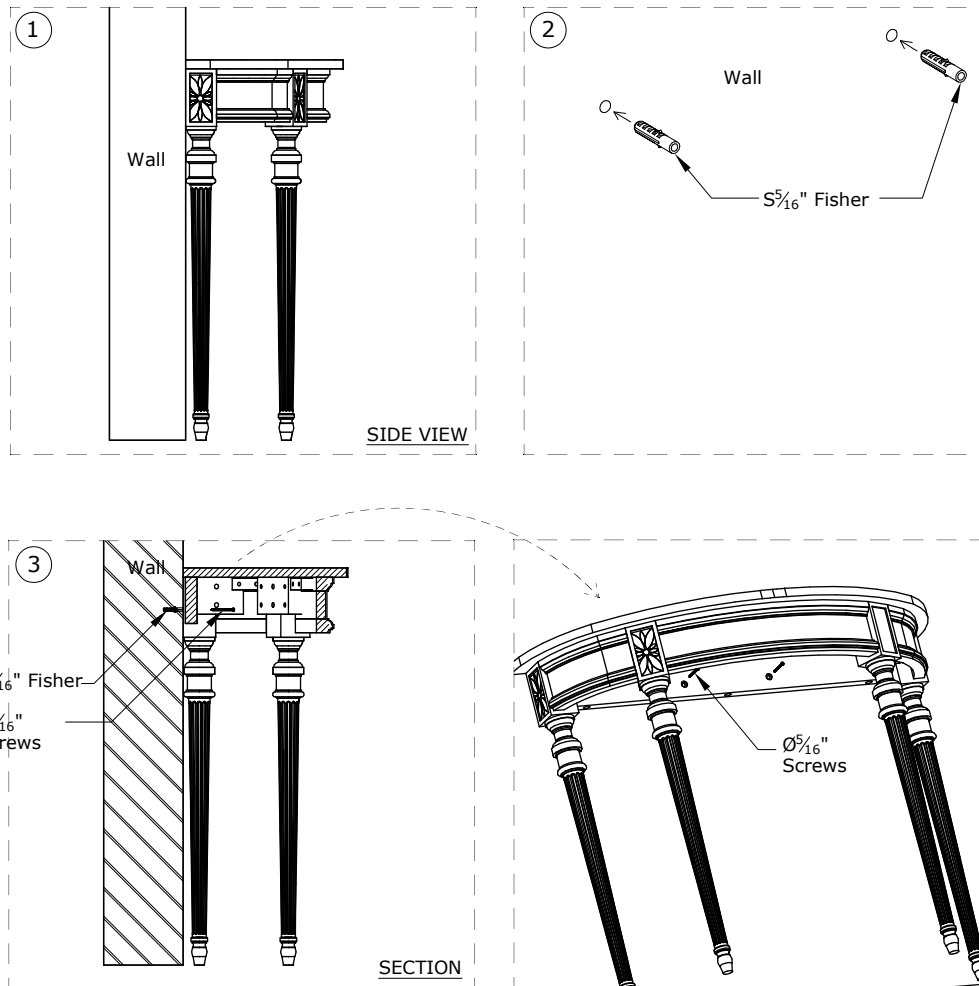

ASSEMBLY STEPS:

1. Place demilune upside down on a surface that will not damage or scratch the finish.
2. Install the legs by matching corresponding numbers stamped on the leg and corner brace.
3. Secure legs to the frame using bolts and washers provided. Tighten with a screw driver.
4. Flip the demilune right side up.
5. Place demilune into final position and mark location for wall anchor. If possible, screw wall anchor directly into wall stud.
6. Secure wall anchor using screws provided.

*Excessive tightening can cause stripping, splitting, and cracking of the wood.

AVE HOME

WALL ANCHOR ASSEMBLY STEPS:

1. Position table against wall
2. Using a pencil, mark the wall where the holes in the back of the demilune are located (see Box 3).
3. Remove demilune from the wall.
4. Using a 5/16\" drill bit, drill holes where wall is marked.
5. Insert wall fisher
6. Reposition demilune and secure to wall using screws provided.
7. Tighten screws with allen wrench or screw driver.

*Excessive tightening can cause stripping, splitting, and cracking of the wood.
