

## ASSEMBLY INSTRUCTIONS

### Parts:

(2) 5/8" thick shelves

(1) Small back

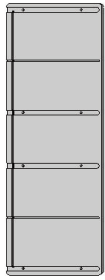

Hardware:

(24) Hex screws

(1) Allen wrench

(2) Sides

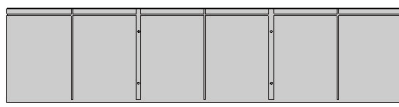

(2) 1/8" thick shelves

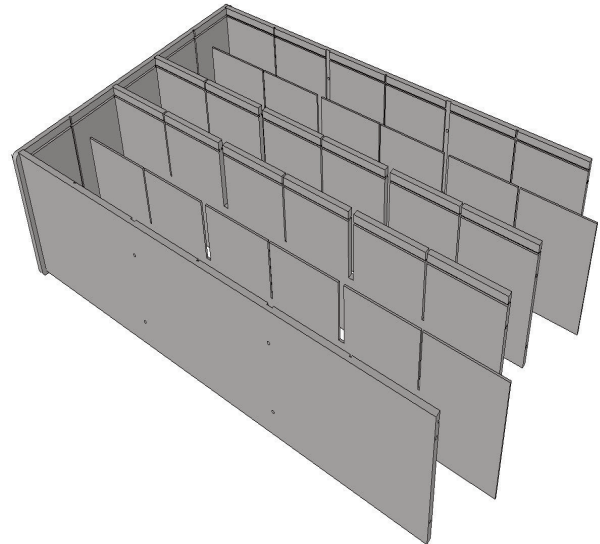

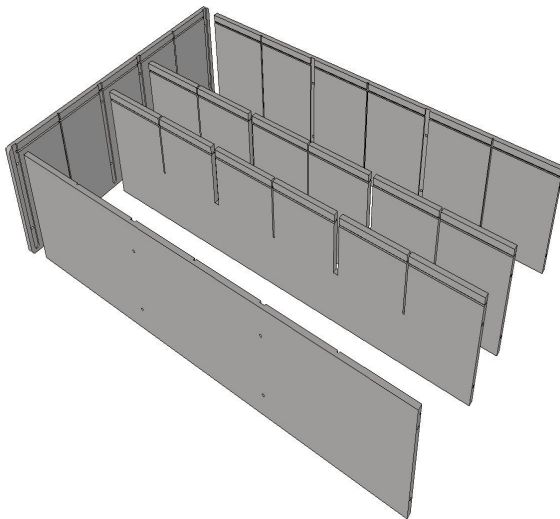

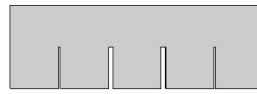

(2) Large backs

(1) Top and Bottom

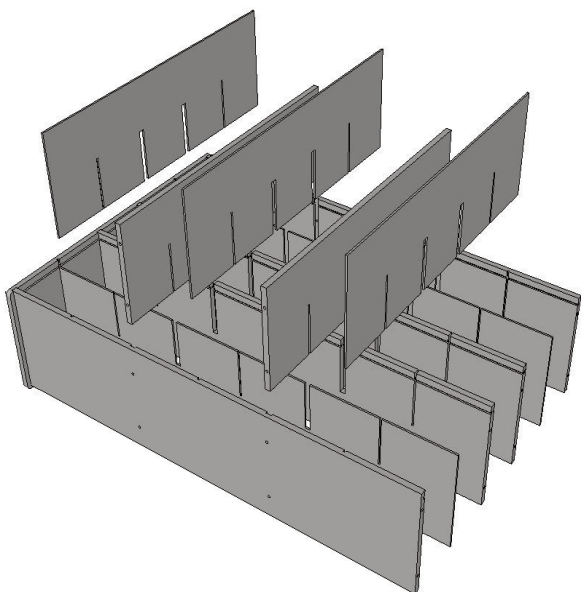

(2) 5/8" thick and (3) 1/8" thick dividers

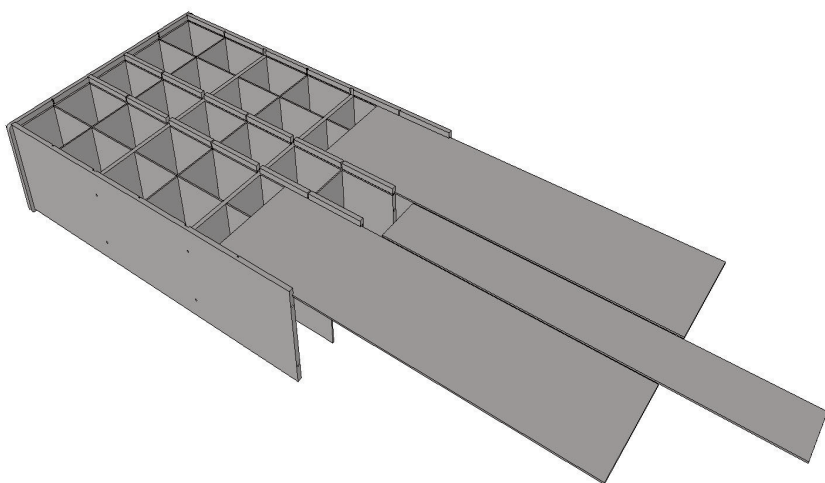

**Step 1:** Attach **Top, Bottom, and (2) 5/8" thick shelves** into a **Side** piece using **(8)** supplied **Hex screws** and **Allen wrench** provided. Back grooves in Top and Bottom, -cuts that go all the way through from short end to short end, align with 3/8" deep back groove in Side piece. Back grooves face inwards towards middle of Side piece. Slots in 5/8" thick shelves also point towards 3/8" deep back groove in Side piece.

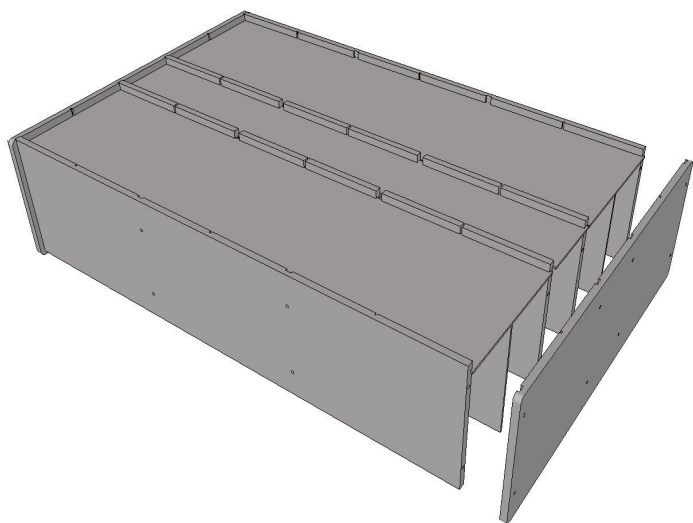

**Step 2:** Slide **(2) 1/8" thick shelves** into place between 5/8" thick shelves and Top and Bottom. No hardware is required in this step.

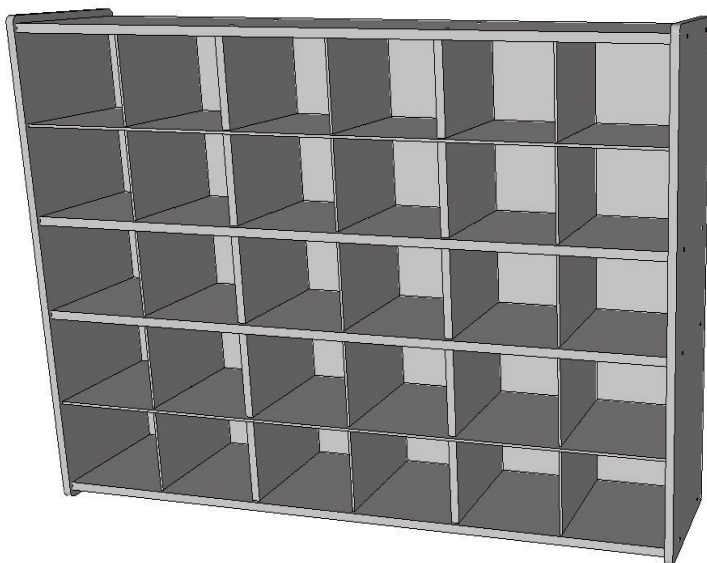

**Step 3:** Attach **(2) 5/8" thick dividers** to Top and Bottom pieces using **(8)** supplied Hex screws and Allen wrench. Slots in 5/8" thick dividers scissor into 5/8" wide slots in shelf pieces. Backs of dividers, (top of dividers pictured above), sit below back grooves in Top and Bottom pieces. Repeat for **(3) 1/8" thick dividers**. No hardware is required to attach 1/8" thick dividers.

**Step 4:** Slide **(2) Large backs** and **(1) Small back** into place using back grooves in Top, Bottom, and (2) 5/8" thick shelves. Backs will extend out past edge of Top, Bottom, and shelves. Do not force and make flush. Make sure backs are sitting in back groove of Side piece.

**Step 5:** Attach second **Side** piece using **(8)** supplied Hex screws and Allen wrench. Overhang on backs past Top, Bottom, and shelves will fit into deeper 3/8" back groove of second Side piece.

**Step 6:** Set unit upright, resting edges of Sides on floor. Tighten all screws snugly. **DO NOT OVER-TIGHTEN. DO NOT DRILL.** Assembly is now complete.
