Frequently Asked Questions to Note:

1.The size of the door gap is different.

One door is equipped with one pc of door spindle pad, and there are enough door spindle pads in the accessories package.

After installation, please check whether the doors on both sides are parallel.

(Provided that the cabinet has been placed on a level ground).

If the door gap is small, please remove the door spindle pad;

If the door gap is large, please add the door spindle pad.

2.The cabinet is not flat.

It is necessary to ensure that four standing feet of the cabinet are placed on the level ground, and then observe whether the door-crack is too large or too small.

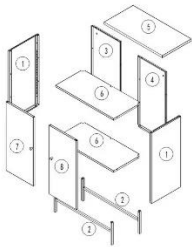

If the upper left door gap is large, please raise the right rear adjustment foot;

If the upper right door gap is large, please raise the left rear adjustment foot;

If the size of the door gap is still different, please adjust the 4 adjusting feet until the cabinet is parallel to the ground.
