

Installation Steps:

1. Tighten the main body of the lamp with the supplied screws.
2. Pass the lamp head wire through the hook rod, and then hook one end to the ring of the main body of the lamp, and the other end to the junction box.
3. Connect the lead wires and light wires of the same color with wire nuts, and cover them.
4. Fix the lifting ring on the junction box and tighten it.
5. Unfasten the button, connect the button to the ring, and then lock the button.
6. Mark points on the ceiling according to the holes of the mounting bracket, drill holes, insert the expansion wire tube into the hole, and tighten the screws with a screwdriver (not included) to fix the mounting bracket on the ceiling.
7. Connect the wires of the same color with wire nuts, and then connect the light wires to the power supply with terminal blocks according to the color of the wires (Europe-brown means "L", blue means "N" z yellow, green means "grounding" ").
8. Put the whole lamp on the hanging plate (let the screws go out of the ceiling)
9. Twist the flower branch screw on the exposed hanging plate screw (and tighten the lock buckle)
10. Each lamp head screws into the bulb and screws into the lampshade

Attention Please:

1. Please make sure power-off before installation. (WE SUGGEST INSTALLATION BY A LICENSED ELECTRICIAN.)
2. Due to differences between monitor displays, actual color may vary slightly from image.
3. Because of the different measurement methods, please allow 0-1/2inch difference due to manual measurement.
4. If you have any questions or any missing parts, please do not hesitate to contact us, we will try our best to help.
