Installation method of desk lamp:

1. Please open the package and take out all the components of the lamp: the lamp body, the bulb and the lampshade.
2. Before installation, please install the bulb first, then plug in the 110V power supply and test whether the lamp is working properly.
3. Please turn off the lights before installation.
4. Remove the circular ring of the lamp body (as shown in Picture 1), and install the crystal chain ring (as shown in Picture 2).
5. Insert the lamp shade white circular hole (Picture 3) into the the lamp body (Picture 2), and then screw the ring (Picture 1) into the lamp body to fix the lamp shade.
