

Installation & Assembly

Version: 1.0

EN_IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY.

EN_QUICKFIT: Tighten quickfit until shoulder is flush with panel. Do not overtighten or undertighten.

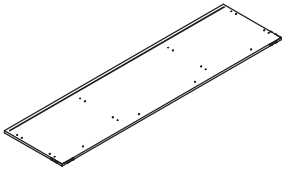

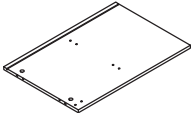

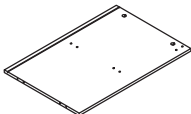

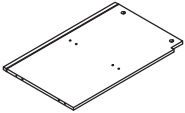

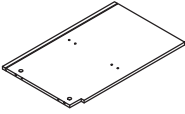

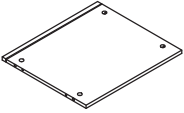

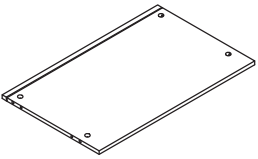

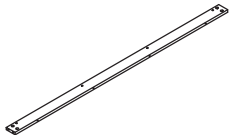

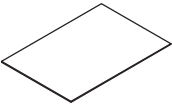

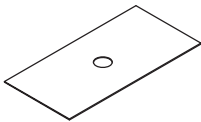

EN_CAM LOCK: When fitting cam lock, ensure starting position is correct before you insert connecting quickfit.

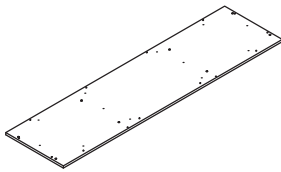

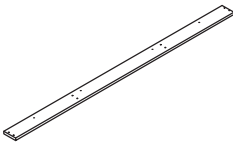

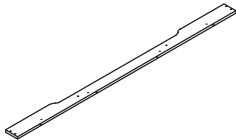

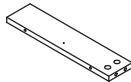

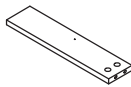

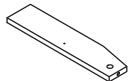

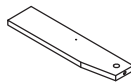

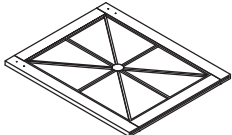

EN_Quickfit head should be in the centre of the cam lock when the two panels are joined.
Cam lock should be inserted before quickfit.

EN_Turn cam lock clockwise to tighten.

First fix the anti-rewind screw in the reserved hole of the product.

Then, put the expansion bolt into the hole

then, use a ruler to measure the approximate height of the product on the wall, and then mark it with a pen.

Finally, pass the matching screws through the "anti-rewind" and tighten them to fix them on the wall.

Then use a tape drill to make holes in the wall that are suitable for the product screws.
