

# ASSEMBLY INSTRUCTIONS

## Note:

Before assembly your new lamp, please read the following precautions and instructions thoroughly.

## IMPORTANT SAFETY INSTRUCTIONS:

This portable Lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in polarized outlet one way only. If the plug does not fit fully in the outlet, please reverse the plug. If it still does not fit, contact a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug. The electrical wire is connected continuously through the poles, do not pull wire during unpacking, bad connections may result.

Place the lamp indoor dry area only. The lamp produces very high temperature, always unplug electrical cord and allow sufficient time for bulb to cool down before replacing bulb.

1. Carefully unpack all parts from the packaging and place then on a carpet/flat/smooth surface. Be sure to remove all the packaging materials from the lamp.

\* Do not plug into the electrical outlet when installing or replacing bulb.

2. Screw the **Steel Pipe** into the **Base** with the **Screw A**, **Spring washer** and **Washer**.

(**Spring Washer**, **Washer** and **Screw A** are pre-installed at end of pole). Screw tightly the above steps with the provided **Allen Wrench**.

3. Place the **Arm** into the **Steel Pipe**, adjust to your ideal height and tighten the **Adjustable Knob**.

4. Place the Bulb onto the Bulb Socket.(LED Bulb Included)

5. Insert the plug into the wall outlet, you are ready to use.

**Note:** You can rotate the **Steel Shade** to adjust the direction of the **Steel Shade**.
