Hiru 3 Tier Shelf Wooden Floor Lamp

Item: 26181 / 26182 / 26183

Dimensions

Height: 138 cm
Width (top): 22 cm
Width (bottom): 39 cm
Weight: 2.40 Kg
Cable Length: 282 cm

Important - Please read these instructions fully before starting

ValueLights, 4 Omega Drive, Irlam, Manchester, M44 5GR

Safety and Care Advice

- Check you have all the components and tools listed on this manual.
- Remove all fittings from the bag and separate them into their groups.
- Keep children and animals away from the work area. Small could choke if swallowed.
- Make sure you have enough space to layout the parts before commencing with the assembly.
- Do not stand or put weight on to the item. This potentially could cause damage.
- Assemble the item as close to the position (in the same room) as possible.
- Assemble on a soft level surface to avoid damage to the item.
- Part of the assembly maybe easy with two people.
- Use only the tools as shown below.
- Do not dispose of packaging until the assembly is complete.
- Dispose of all packaging carefully and responsibly at your local recycling plant.

Care and Maintenance.

- Use a duster to reach even the most difficult of spaces.
- If it's been a while since you've dusted your lights, consider wearing a mask to protect your mouth and nose.
- After wiping down the dirt, dust and any residue left behind, check for damage, broken or missing pieces.
- More stubborn marks can be removed using a damp (not wet). Wipe the item dry using a lint free cloth.
- DO NOT use detergents, abrasive cleaning products or cleaning products that contain ammonia, solvents or silicone as these may damage the surface of the item.
- Regularly check that there are no loose screws on the light fitting.

Suggested Tools Required. Not supplied.

Specifications

Material:	Wood
Cable Colour:	Black (26181) – White (26182 / 26183)
Lamp holder Fitting:	E27
Switch Type:	Rocker
Mains Voltage:	220 – 240V – 50Hz
Protection Class:	Class II (double insulated – it does not require an earth connection)
Waterproof Grade:	IP20 (protected from touch by fingers and objects greater than 12 millimetres. Not protected from liquids or dust)

Before you begin assembly:

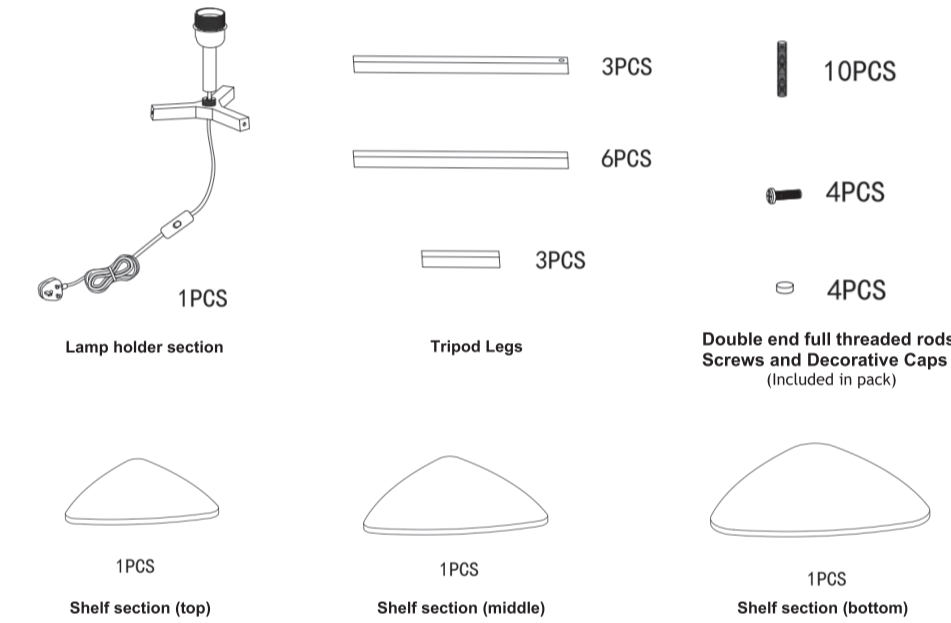

- Unpack all components onto a flat surface that will not damage them or allow them to become dirty.
- Check that all components are correct and present.
- Familiarize yourself with the product, its component parts and how it is assembled.
- Keep all packaging until after a successful installation and retain the instructions for future reference.

We regret to inform you that we are unable to advise on internal house wiring.

1

Components - Fittings

Please check that you have all the components and fittings listed below.

SAFETY:

- Please choose screws and fixings that are suitable for the material that your floor lamp is made of, if the ones supplied do not suit.
- This is a Class II product, and it does not require an earth connection (220 – 240V AC – 50Hz).
- This fitting must be permanently wired into the electric system. Always shut off power to the circuit before starting installation work.
- Do not modify or alter any product before or after installation. This will invalidate your warranty and may render the product un-safe.
- Before inserting or replacing bulbs make sure that the light is unplugged and has cooled down.
- Always disconnect from the mains after use & before cleaning or servicing.
- The external flexible cable or cord of this floor lamp cannot be replaced; if the cord is damaged, the lamp shall be destroyed.

POSITION:

- Do not mount the fitting in a damp atmosphere.
- Indoor use only.
- Ensure the floor lamp is in a location where the power cable will not cause an accident.
- Place the floor lamp on a level surface.
- Ensure there is a sufficient power supply.

IF AT ALL UNSURE, STOP NOW AND SEEK PROFESSIONAL GUIDANCE

IF IN DOUBT ABOUT FITTING THIS ITEM, PLEASE CONSULT A QUALIFIED ELECTRICIAN

2

ASSEMBLY AND SET UP:

- Please follow the installation process in accordance with the diagrams below.
- Begin by attaching the three small tripod legs to the bottom shelf section. To do this, attach the three double end full threaded rods to the bottom shelf, using the pre-drilled holes on the upper side of the shelf. Make sure the rods are screwed in tightly. (Diagram 1)
- Screw the next three larger tripod legs onto the double end full threaded rods, making sure they are evenly spaced and straight. Once they are in position, secure them in place. (Diagram 2)
- Screw the next three double end full threaded rods to the next three tripod legs, using the pre-drilled holes and attach the middle shelf to the legs, assembling it between the six tripod legs. (Diagram 3)
- Screw the three remaining double end full threaded rods to the last three tripod legs, using the pre-drilled holes and attach the top shelf to the legs, assembling it between the tripod legs. (Diagram 4)
- Attach the lamp holder section onto the top of the tripod legs, using the screws provided, making sure it is centered and level. (Diagram 5)
- Finally, attach the three decorative caps to the top of the tripod legs, covering the exposed ends of the double end full threaded rods. (Diagram 6)
