Technical Specifications

NOTE

Read complete instructions before beginning installation.

Each bathtub arrives ready for installation, completely equipped with blower motor, pump/motor assembly, heater (if applicable), and plumbing necessary for operation.

Remove the bathtub from the carton. Retain the shipping carton until satisfactory inspection of the product has been made. Do not lift the bathtub by the plumbing or wiring at any time; handle by the shell only.

Immediately upon receipt, inspect the shell before installing. Should inspection reveal any damage or defect in the finish, do not install the bathtub. Damage or defect to the finish claimed after the bathtub is installed is excluded from the warranty.

Jacuzzi Luxury Bath's responsibility for shipping damage ceases upon delivery of the products in good order to the carrier. Refer any claims for damage to the carrier. For definitions of warranty coverage and limitations, refer to the published warranty information packed with the product.

All bathtub units are factory tested for proper operation and watertight connections prior to shipping.

NOTE

Prior to installation, the bathtub must be filled with water and operated to check for leaks that may have resulted from shipping damage or mishandling. Jacuzzi Luxury Bath is not responsible for any defect that could have been discovered, repaired, or avoided by following this inspection and testing procedure.
