

Installation steps

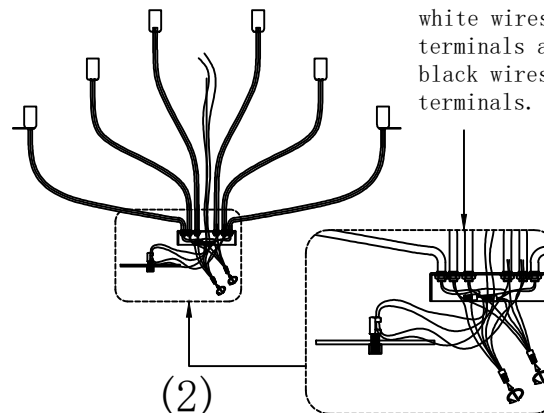

(P2-2)

1. Install the bottom of the lamp arm on the small round hardware and lock it with nuts.

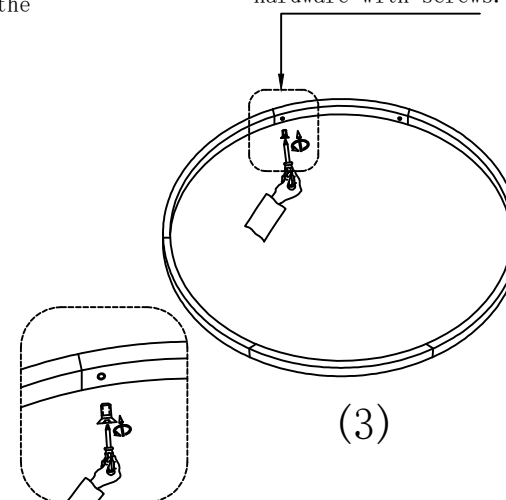

(1)

2. Then connect all the white wires to the terminals and all the black wires to the terminals.

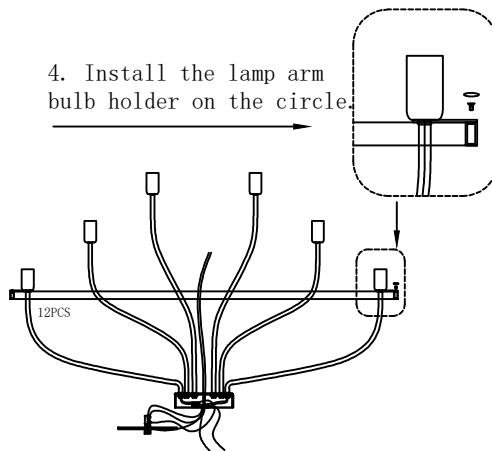

(2)

3. Install the round hardware with screws.

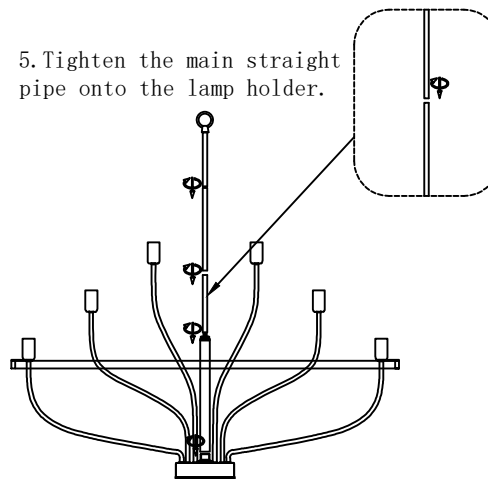

(3)

4. Install the lamp arm bulb holder on the circle.

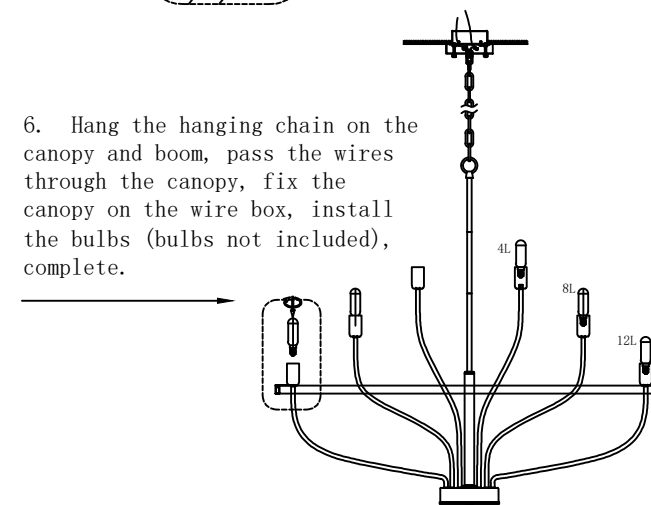

(4)

5. Tighten the main straight pipe onto the lamp holder.

(5)

6. Hang the hanging chain on the canopy and boom, pass the wires through the canopy, fix the canopy on the wire box, install the bulbs (bulbs not included), complete.

(6-The end)
