

### ◀ STEP 3: Flip the Lower Leaf

Take the lower section of Panel#3, fold it along its center line, and flip it over to position it correctly within the recessed storage area.

### STEP 4: Stow and Secure ▶

Gently push the folded Panel#3 completely into the central storage compartment beneath the table. Ensure the metal hook mechanism underneath the base fully engages and secures the stored panel.

### ◀ STEP 5: Close and Lock

Push the two main tabletop halves back together until they form the final compact short rectangle shape. Finally, re-engage the security latches beneath the tabletop to lock the entire surface firmly in place.
