

Sponge Holder

① Drain rack

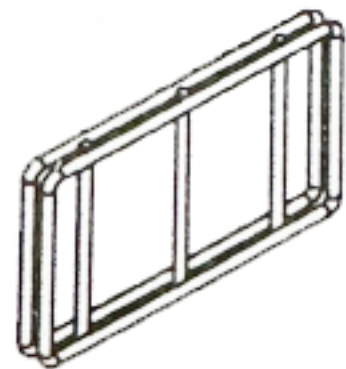

1PC

② Plastic tray

1PC

③ Divider

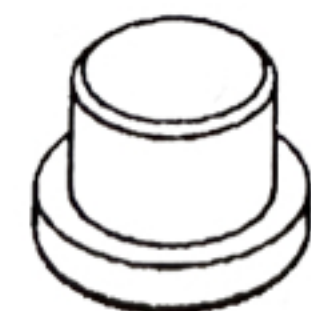

1PC

④ Chopstick cage

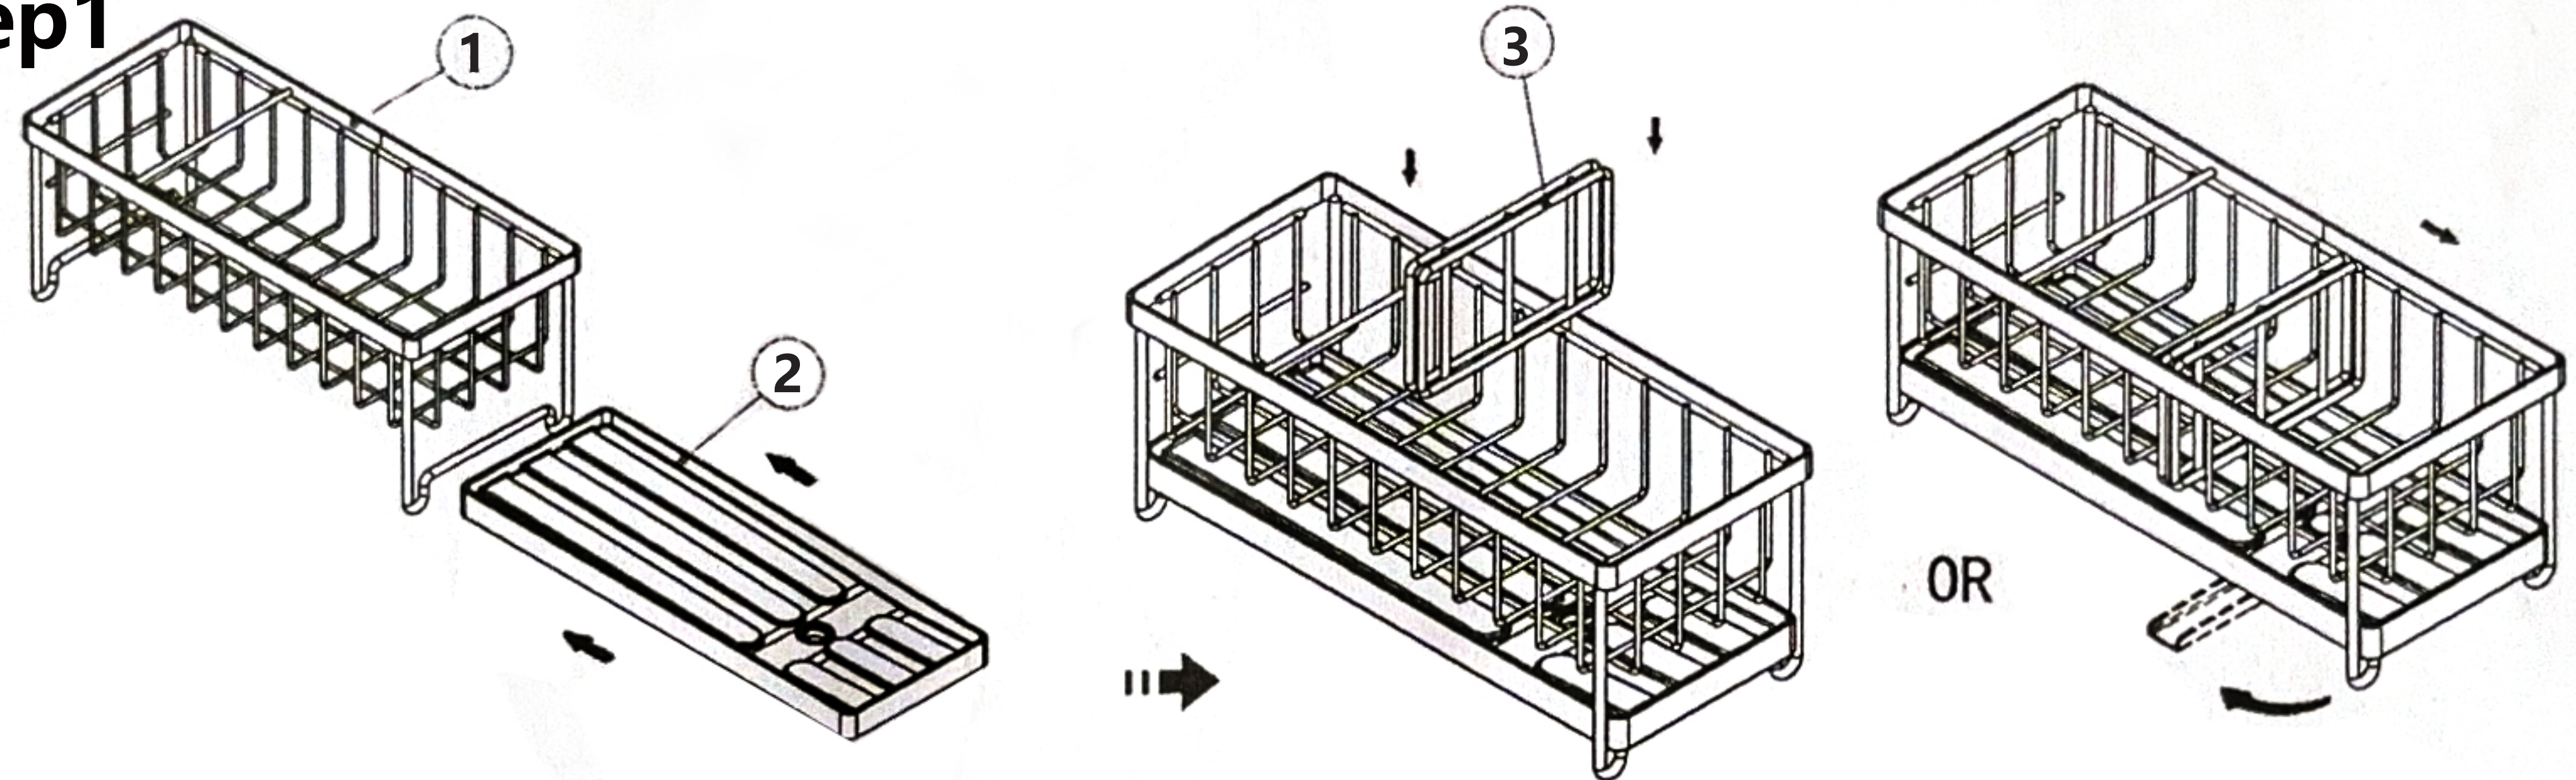

1PC

⑤ Silicone stopper

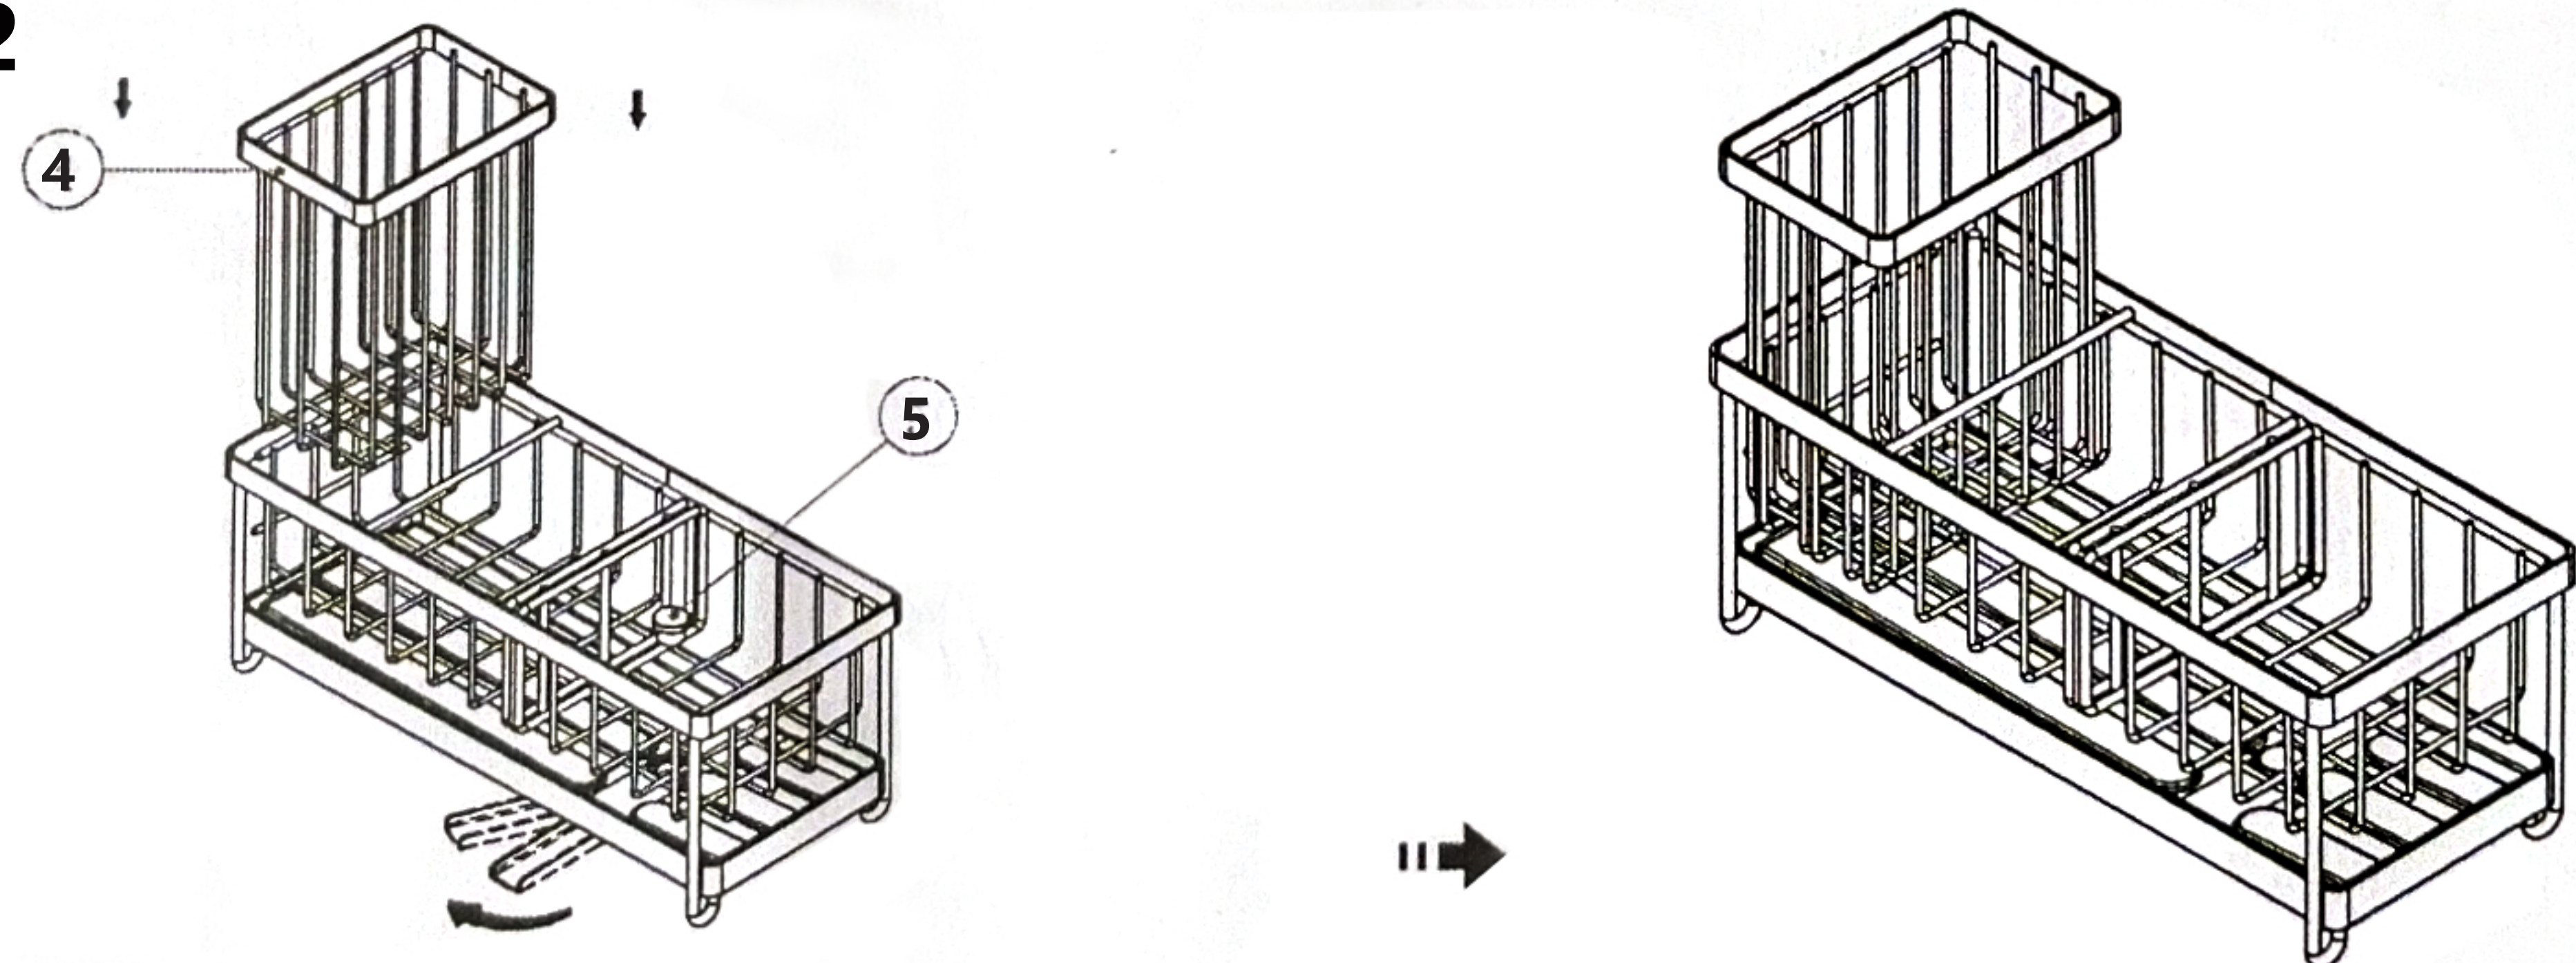

1PC

Step1

A: Put "2" into "1" from the side, the width of "3" can be adjusted according to personal needs, and the direction of the water outlet of the water tray can be adjusted according to personal needs.

Step2

B: Place the chopsticks cage "4" into the cloth holder (as shown in the above picture), If you do not need a drain tray to drain directly, you can use a "5" silicone plug to block the outlet of the "2" drain tray. Wait until the drain tray is full before pouring it out.
