

TRAMPOLINE

WITH ENCLOSURE NET

USER MANUAL

READ THIS FIRST!!!

Thank you for purchasing our product

**IN CASE OF MISSING OR BROKEN
PARTS, PLEASE CONTACT PLACE OF
PURCHASE FOR ASSISTANCE.**

Warning: We are not liable for any injuries that may occur when using the trampoline.

If you can't contact the seller in case of any problems, please contact the trampoline factory through this email address and we will provide you with assistance : **service@cnmersco.com**

INSTALLATION WARNING

1. Please make sure at least 2 people install the trampoline.

2. Please install the trampoline on the flat and non-slippery ground.

3. Please install the springs in the X-shape order one by one as requested in the instructions.

4. Please do not move or lift the trampoline during or after installation but use the tie down stakes kit to secure it.

USE WARNING

Do not somersault or flip.

Do not dunk and hold onto the ring.

Do not jump onto the trampoline from a height.

Do not intentionally hit the safety enclosure net.

Do not use the trampoline in stormy weather but disassemble and store it.

Do not exceed 330lbs for a single user and do not exceed the total weight for multiple users.

Do not place any sharp objects on the trampoline.

Do not use during pregnancy, high blood pressure or other injuries.

NO	Part	Name	12FT	14FT
1		Instructions	1	1
2		Leg Extension	8	8
3		Base Leg	4	4
4		Connector	8	8
5		Top Rail	8	8
6		Wrench	1	1
7		Jumping Mat	1	1
8		Spring	72	80
9		Spring Tool	1	1
10		Frame Pad	1	1

11		Bottom Safety Pole	8	8
12		Up Safety Pole	8	8
13		Safety Net	1	1
14		Fiber Rod	8	8
15		T-Plastic Joint	8	8
16		Net Rope	7	8

INSTRUCTION

Step 1:

insert the Leg Extension(#2) into the Base Leg(#3) and stick out completely,totally 4 legs.As shown in Fig . (Screwless installation)

STEP 2:

2 People would be necessary at this part. Find out all the Top Rail(#5), and simply slide the thicker end to the Connector(#4), then connect the other side of Connector(#4) to adjacent section with the thinner side.

Step 3:

Make sure you find the most flat place and it's plenty enough to put a trampoline, 2 people would be necessary at this part, one person lifts up the top rail and connector assembly in step 2, and another person uses the leg assembled in step 1 to connect, fix connector(#4). keep repeating step 3 until the 3 bases are connected, as shown in the picture.

Don't forget to check the Connector is tight enough.

To make the hole position coincide with the metal marble position of the Leg Extension(#2) until the metal marbles pop out and fixed.

STEP 4-Trampoline Mat Assembly

The springs need to be placed in position as shown in the diagram below, in order to pull the "Trampoline Mat" in all four directions. Make sure each V-ring on the mat corresponds to every single opening on the top rail.

7

8

9

MOST IMPORANT TIP:

Count the holes on top rail and the V-rings in mat and mark every quater point on both mat and top rail,then use the spring to attach the V-rings and hole which were marked.

Lay out the Jumping Mat(#7)inside the frame on the floor as the picture on the left.

TIP 1

Install the Springs in the X-shape order one by one to make sure the tension is distrib-uted evenly for the Jumping Mat .Gently tap down against the spring if the hook is not completely in the hole.

TIP 2

Make sure the serial number of the triangular rings on the Jumping Mat and the holes on the top rail frame are the same when counting from the same direction.

WARNING

Please take care not to pinch your hands and other body parts during spring assembly.

**CAN NOT
BE LIFTED
& MOVE**

14FT

X shape: 1st >40th>20th→>60th→>10th→>50th >30th >70th

STEP 5-Frame Cover Pad Assembly

A.Lay the Frame cover pad over the trampoline so that the springs and the steel frame is covered. Please ensure that the Frame Pad covers all metal parts.

10

B.Tie the strap located at the under side of the frame pad to the frame.

STEP 6:
Mount the Bottom Safety Pole (#11) onto the Connector (#4)

STEP 7

Insert the Up Safety Pole(#12) into the top of the Bottom Safety Pole(#11),and then rotate the Up Safety Pole(#12) to make the hole position coincide with the marble position of the Bottom Safety Pole (#11) untill the metal marbles pop out and fixed. Repeat step 7 to install 6 of the safety pole

STEP 8

Insert the fiber rod (#14) into the top of the net (#13)

Use plastic joints (#15) to connect two fiber rods (#14) together, then insert the plastic joints (#15) into the Up Safety Pole(#12)

Repeat step 8 until the six fiber rods are connected in a circle

STEP 9

Components net ropes(#16),safety net(#13) through the bottom hole components,and parts cross around spring, and fixed.

NO	Part	Name	12FT	14FT
17		Carriage Bag	1	1
18		Step Pole	2	3
19		Frame Pole	2	2
20		Ladder Screw	4	6

STEP 10

Follow the instructions below to install the Carriage Bag(#17) between the two Leg Base

STEP 11-LADDER ASSEMBLY

Take out the Frame Pole(#19), Step Pole(#18) and screw(#20). And screw the Step Pole(#18) above the Frame Pole(#19) as shown in the figure.

21 Net/1pc

22 Hoop/1pc

23 Backboard/1pc

24 Backboard Specific Pole/1pc

25 Screw/4pcs

26 Screw/4pcs

27 Spanner/1pc

28 Basketball/1pc

29 Pump/1pc

WARNING

* Read and follow this installation manual

* Adult assembly required

STEP 12:

Install the Backboard(#23) and Basketball Net(#22) onto the Backboard Specific Pole(#24),secure them with screw(#25)

Install the assembled backboard onto net pole(#12)with screw(#26)

CARE AND MAINTENANCE

This trampoline was designed and manufactured with quality materials and craftsmanship. If proper care and maintenance is provided. It will provide all jumpers with years of exercise, fun, and enjoyment as well as reduce the risk of injury. Please follow the guidelines listed below:

This trampoline is designed to hold a certain amount of weight and use . Please make sure that only one person at any one time uses the trampoline. Also, the person should weigh less than **330lbs (150kgs)** jumpers should either wear socks, gymnastics shoes, or be barefoot .

When using the trampoline. Please be aware that street shoes or tennis shoes should NOT be worn while using the trampoline in order to prevent the trampoline mat from getting cut or damaged please do not allow any pets onto the mat. Also, jumpers should remove all sharp objects from their person prior to using the trampoline. Any type of sharp or pointed objects should be kept off the trampoline mat at all times.

Always inspect the trampoline before each use for worn, abused or missing parts. A number of conditions could arise that may increase your chances of getting injured. Please be aware of:

Punctures, holes, or tears in the trampoline mat

Sagging trampoline mat

Loose stitching or any kind of deterioration of the mat

Bent or broken frame parts, such as the legs

Broken, missing, or damaged springs

Damaged, missing, or Insecurely attached frame pad

Protrusions of any types (especially sharp types) on the frame, springs, or mat

CARE AND MAINTENANCE

WINDY CONDITIONS

In severe wind Situations, the trampoline can be blown about. If you expect windy weather conditions, the trampoline should be moved to a sheltered area or disassembled. Another option is to tie the round, outside portion (top frame) of the trampoline to the ground using ropes and stakes.

To ensure security, at least three (3) tie downs should be used. Do not just secure the legs of the trampoline to the ground because they can pull out the frame sockets.

MOVING THE TRAMPOLINE

If you need to move the trampoline, two people should be used. All connector points should be wrapped secured with weather resistant tape, such as duct tape. This will keep the frame intact during the move and prevent the connector points from dislocating and separating. When moving, lift the trampoline slightly off the ground and keep it horizontal to the ground. For any type of other move, you should disassemble the trampoline.

IF YOU FIND ANY OF THE PREVIOUS CONDITIONS, OR ANYTHING ELSE THAT YOU FEEL COULD CAUSE HARM TO ANY USER, THE TRAMPOLINE SHOULD BE DISASSEMBLED OR SECURED FROM USE UNTIL THE CONDITIONS HAS BEEN RESOLVED.

THE PRODUCT SPECIFICATIONS AND INFORMATION MENTIONED IN THESE OPERATING INSTRUCTIONS ARE FOR REFERENCE ONLY, AND ARE SUBJECT TO CHANGE WITHOUT NOTICE.
