RESET Setting	Method 1: Press and hold “^” and “v” buttons on the controller at the same time for seconds until you hear the beep. Release the buttons. The desk will go automatically until it shows 69, and the reset is successful.
Height Adjustment	Up: Press Up “^” .Down: Press Down “v” .
Switch Display	Press and hold “v” and Button 4 to switch cm to inch to cm.
Memory Height	Press and hold any memory button (1, 2, 3 or 4), see the number flash twice, release the button, this position height will be stored in memory. When the working height of memory, press the memory position button and the table will automatically adjust to the memory height. Note: This standing table has four different heights of memory. The stored memory position remains valid after the power is off. You can use the upper and down buttons to adjust the standing table to the height you need to work

Trouble shooting Guide:

If your standing desk does not work properly, you may need to reset it.

If any error codes appear, you need to reset it.

If it still does not work after the reset, please contact us for more help.

Maintenance and Consideration:

1. During daily maintenance, use a clean soft cloth to remove surface dust. Do not use a wet cloth or hard material to wipe the surface of the table.
2. Avoid contacting the surface with acid-based chemicals.
3. For slight scratches, gently wipe with a soft cloth, you can smooth out scratches. Avoid attaching tape directly to the outer surface of the metal feet to prevent paint from peeling.
