Assemble the base with the above parts. Once base is assembled build upwards using the parts listed in step 2.

**STEP 2 Parts:** 4xA 2xC 4x21 6x23  
This forms the next level. Once completed build the next level with parts listed in step 3.

**STEP 3 Parts:** 2xD 1xE 2x21  
This forms the final level. Once completed place the cover over the frame and attach.

## STEP 4 Parts:

In order to have the frame connected you will need to assemble the frame by pushing downward while connecting two rods at a time, giving it an extra force (when frame is complete repeat from all angles, as picture shown). This will result in a tighter and smaller frame enabling the greenhouse cover to slide on easily.
