

Assembly Instructions for **Model HL724143**

Assembly Method

In the following instructions, some pictures are for reference only.
Please install according to the provided method.

Additional Notes:

1. The yellow/green wire serves as the ground wire.

2. Align the metal ring of the ground wire with the circular hole located between the ceiling plate and the mounting bracket, then insert the connecting rod through it to secure it in place.

Connect the other end of the ground wire to the grounding terminal of your home's electrical circuit (if no such terminal exists, do not use).

The installation is complete.

Your fixture is now assembled and ready to use.
