

Your order will be shipped in multiple packages, and delivery times may vary.
We appreciate your patience and understanding.

Notice:

- 1. Follow the installation instructions. Please confirm all accessories are preset before installation.
- 2. Do not fully tighten the screws during initial assembly. Fully tighten screws only once all pieces which are correctly assembled.
- 3. If you encounter any problems during installation, please contact our customer service.
- 4. Please unbox the item from the side with an open-label and put a carpet on the floor to avoid scratching it.

Installation completed

The bathroom cabinet base panel has pre-drilled hole, designed to accommodate on-site conditions where the drain outlet is installed lower than the cabinet mounting height.

4

Installation of drain assembly

Turn the screw at the bottom of the guide rail counterclockwise!

Pop-up Waste Installation

STEP 1
Install Pop-up Waste with over flow.

STEP 2
Connect the drain pipe.

This product does not include faucet and drainage accessories. The content on this page is provided as installation suggestions only. Please carry out the installation according to the requirements of the product you actually purchased.

Always fully close the faucet after use!
Failure may cause:

Water Overflow

Continuous flow with blocked drain floods cabinetry, floors, and ceilings below, causing property damage and liability for compensation.

Personal Injury

Water accumulation significantly increases slip/fall risks (especially for children/elderly).

Cabinetry Damage

Water infiltration leads to swelling, warping, hardware corrosion, and countertop cracks.

Hidden Hazards

Persistent leakage erodes wall structures, breeds mold, and incurs high repair costs.

We strongly recommend that you:

- ✓ Confirm faucet is fully closed after each use;
- ✓ Regularly inspect faucet/hoses for leaks;
- ✓ Shut off angle valve immediately and seek repair if malfunction occurs;
- ✓ Cut off main water supply when leaving home long-term.

Disclaimer: Users bear full responsibility for damages caused by faucet left open or delayed repairs.

PIVOT-PRO side adjustment

Side adjustment of the door is made by using the indicated screw.

PIVOT-PRO Depth Adjustment

Depth adjustment is made without loosening any screw. The door can be moved in or out by rotating the cam adjuster on the hinge arm.

PIVOT-PRO Height Adjustment

By loosening the two fixing screws to allow the mounting plate to slide up or down, the door can be adjusted vertically by $\pm 2\text{mm}$. After retightening the screws, the Depth adjustment is done.
