Assembly Instructions - 1

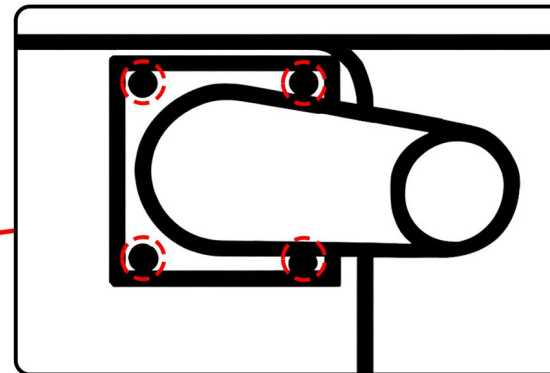

STEP 1

Fix the chair legs with screws

If there are no marked screw holes at the bottom of the seat, simply cut small holes in the black fabric with scissors.

Operate on the four corners simultaneously, insert the screws into the four corners at the same time, tighten them halfway first, then fully tighten all of them.

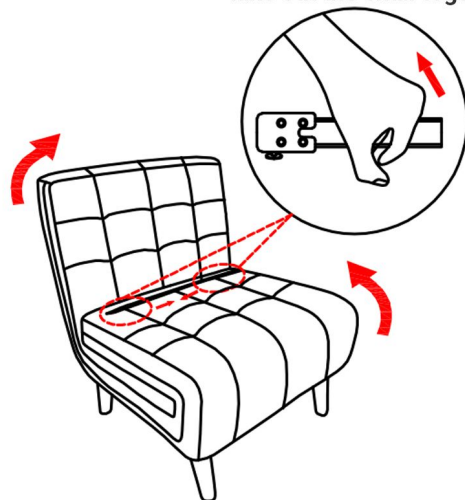

If the screws get stuck and cannot be inserted into the chair legs, simply follow the above instructions. If you do not follow the instructions, unscrewing the screws will cause the paint on the chair legs to peel off!

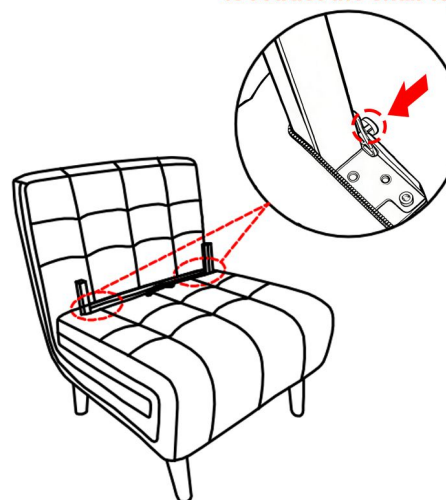

STEP 2

Operation Instructions for Chair Feet

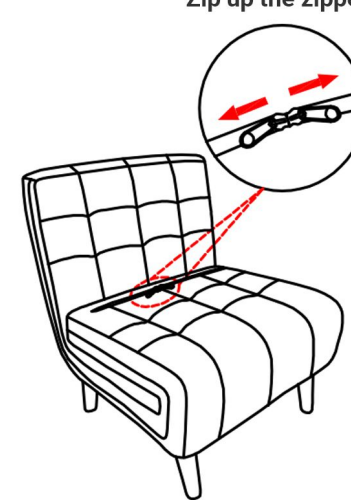

Unzip the zipper and take out the chair legs

Press and hold the button to retract the chair legs

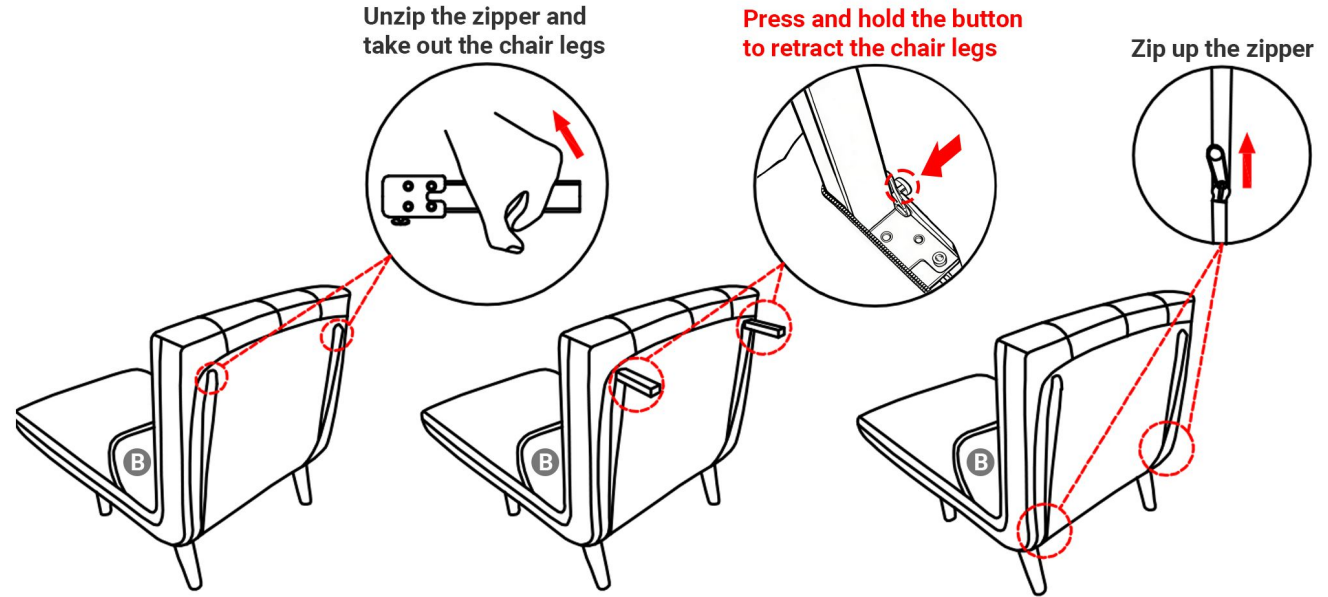

Zip up the zipper
