User's Guide

Thank you for purchasing this product.

To use this product, please connect it to a power source.

Please use if the product works normally after connecting to power.

Introduction

The box is an intelligent controller. It has 1 USB output port 1 Type-c port and can distribute the current output up to 5V DC-2A. With 2 touch buttons, it can turn. ON/OFF the light, change light colors, and adjust the light luminance.

Operation

This touch button controls the on/off of the light

Short touch -> lighting on -> short touch -> lighting off.

This touch button controls the color switching and brightness adjustment of the light

1. It can only be used when the light is on
2. Offering 3 different colors to choose from. Simply tap to cycle through the options.
3. Long touch -> adjust the luminance.

⚠ ATTENTION PLEASE

1. If there is no touch response suddenly, Re-plug the power to reset the touch static electricity.
2. If you have any questions when installing, please feel free to contact us. Thank you.
