White

In 1897, the apron sink was introduced by Shaws™ of Lancashire, England. Today, every Shaws™ Original Fireclay Sink is still hand poured, shaped and stamped with the name of the very artisan who crafted it. Taking over 3 weeks to create, more clay, more glaze, more heat and more care breathe character into products made by real people. Every Shaws™ sink is unique and designed to last a lifetime.

A DISTINCTIVE MEMBER OF THE HOUSE OF ROHL
