

Installation diagram

Installation steps

First open the outer box, find out all kinds of accessories, and carefully placed on a clean platform, to prevent scratches, collision light body.

1: Connect the lamp body using metal tubes according to the diagram.

2: Twist the hexagon socket head screws according to the picture

3: Connect the lamp head to the ceiling plate with a chain as shown in the picture

4: Use the screws on the accessory package to fix the hanging board onto the junction box

5: Connect the main line on the ceiling panel to the reserved line on the ceiling with a wiring cap

6: Slide the entire lamp onto the hanging board (allowing the screws of the hanging board to protrude above the ceiling plate), and then twist the splined nuts onto the exposed screws of the hanging board

7: Install the G9 bulb into the lamp holder (light source not included at factory).

8: Screw all the decorative beads into the hole reserved in the lamp body

9: Cut the cable tie with scissors and let the decorative bead string spread naturally

Notes:

It is strictly prohibited to wipe the surface of lamp body with tianna and other chemical solvents. Cotton cloth is recommended. Glue a small amount of water to gently wipe the lamp.

Warm tips: this lamp is only for indoor installation and is strictly prohibited for outdoor use
