

Installation Guide

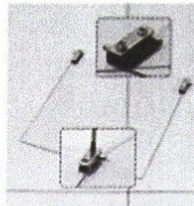

QTYGM-Multi functional storage cabinet-2029

Bamboo and Wood/Original Life/Small Furniture

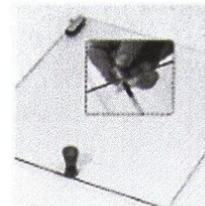

parts list

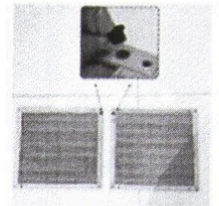

Start assembling

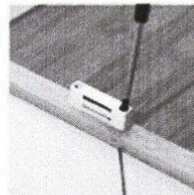

1. Remove the door panel and lock buckle, and fix the locking gasket with locking screws. Pay attention to placing locking washers on the top and bottom of the door panel.

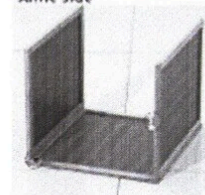

2. Remove the door handle and door handle gasket and fix them with handle screws. Note that the smooth surface of the door handle and lock buckle are on the same side.

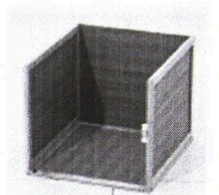

3. Remove the circular gasket and insert it into the holes on the upper and lower layers of the board.

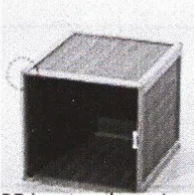

4. Take out one of the side panels and fix the door latch with the door latch screw. The side of the door latch with the iron plate facing outward.

5. Then fix the side panels to the upper and lower panels with long screws. Pay attention to the side panel with grooves, and unify them at the back.

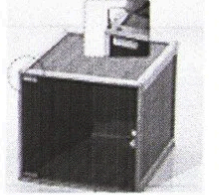

6. Remove the backboard and insert it along the groove.

7. Take out another top layer board and fix it with long screws. Pay attention to aligning the circular washers and do not tighten the marked screws yet.

8. Then insert the door lock buckle into the circular gasket.

9. Finally, tighten the screws.
