

CARE INSTRUCTIONS FOR

Avoid Abrasive Cleaners:

Avoid using harsh cleaners or abrasive tools on iron home decor to prevent scratching or damaging the surface. Use mild cleaners specifically designed for metal.

Protect from Heat:

An iron pot without insulation can overheat plants in hot weather. If using an iron pot for planting, ensure it has drainage holes for the plant to breathe and keep it indoors to avoid extreme temperatures.

Polishing:

Occasionally polish iron decor with a soft cloth and a suitable metal polish to maintain its shine and protect the surface.

By following these care instructions, you can help preserve the beauty and longevity of your iron home decor items for years to come.
