Base Type: G9

Light Source Included: NO

Voltage: 120VAC

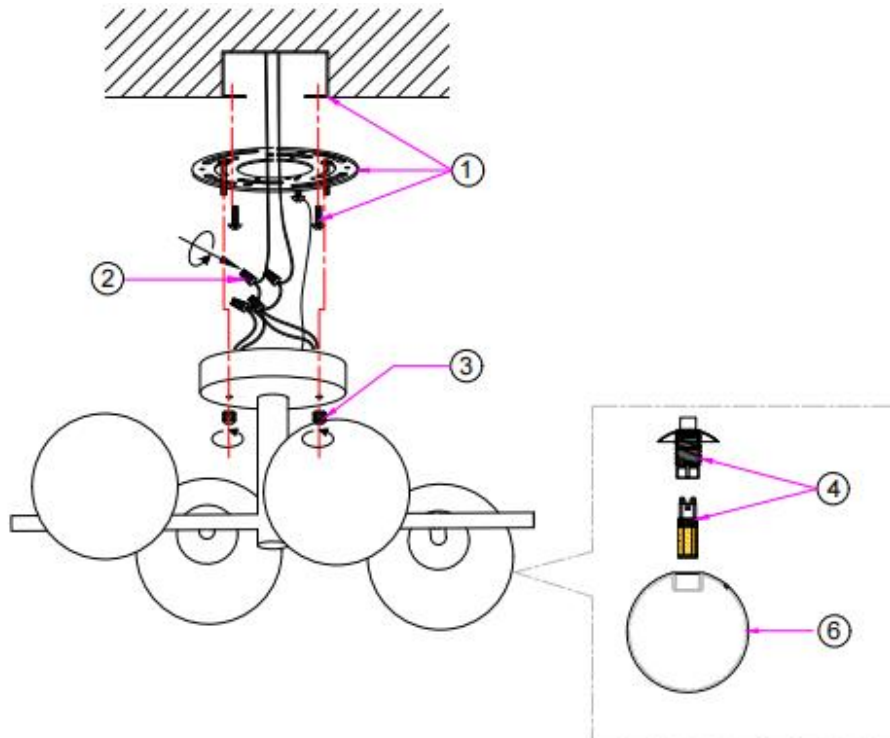

Wattage: 25W

Package includes

1 x Ceiling Light

1 x Accessories Kit

1 x User's Manual

Installation Instructions

1. Secure the mounting plate to the junction box with screws.
2. Connect the light fixture's positive, negative, and ground wires to the corresponding positive, negative, and ground terminals in the junction box with wire nuts (be sure to distinguish between positive and negative).
3. Secure the light fixture to the mounting plate with final nuts.
4. Install the light source (light source not included).
5. Turn on the power to check if the light fixture is working properly.
6. Rotate and tighten the glass shade onto the socket (make sure to align the threads properly; tighten gently to prevent glass damage).

Installation complete.
