

Instruction

Caution! Children should not open this package alone for safety sake !

1.Cut two cable ties with scissors (be careful not to be bounced by the cable ties), then cut the transparent bag and take out the sofa.

2.Due to package compression which is applied for better shipping arrangement, the fabric may have wrinkles. Please pat every part of it to make it rebound better and fluffy after taking it out. It can restore to below picture-like status after leaving it for a week or two.
