

Invite a cavalcade of wildlife to dine in your outdoor sanctuary with this fantastic Coveside Wildlife Seed Feeder. Made of responsibly sourced pine in a family owned mill, this unique and naturally beautiful unit sports a spacious platform base to help backyard wildlife access the seed held within its wooden hopper reservoir. This generous reservoir can hold up to 4 quarts of feed at once to cut down on refills, while lending a plentiful bounty to deer, squirrels, and assorted wildlife. The item's large roof secures onto the feeder, held in place by a pair of metal latches, ensuring that the food remains protected against precipitation as well as squirrels and larger pests. A slanted front panel allows room for the seed to distribute while providing additional deterrence from unwanted predation, letting wildlife friends easily enjoy their feast. Place the feeder on a flat surface for simple showcase in your yard, or mount it to a 4 x 4 post (not included) for a variable and elevated display. The alluring pine finish of this item will age to a striking gray over time and with exposure to outdoor conditions for even more appeal, giving you a variable accent for years to come. Treat all sorts of wildlife to a variety of nutritional noshes by placing this Wildlife Seed Feeder in your backyard garden. Made in the USA.
