How to Operate

1. Insert the hose into the air outlet of the main unit.
2. Touch the switch on the machine's control panel for 2 seconds
3. Select the appropriate nozzle according to your need and turn it in clockwise.
4. Adjust the temperature and wind power by touching the "+" or "-" keys.
5. After use, switch off the power with a gentle touch of the power key.
6. Open the back cover and remove the filter cotton for cleaning.

Different Dogs Use Different Times(For Reference):

Teddy and other small dogs: about 10 minutes.

Large and medium-sized dogs such as Golden Retrievers and Huskies: About 20 minutes.

Notes

1. Please check the size carefully before ordering.
2. Please note that the drying time may vary depending on the pet's body size, hair volume, and environment.
3. Please read the instruction manual completely before use, and pay particular attention to the safety instructions included.
4. Please keep this product out of reach of children, do not use it near water, keep the power plug and cord away from heated surfaces, and always unplug it when finished using it.
5. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement and make sure you do not mind before ordering
