Table Lamp Packing List

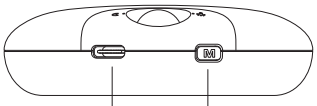

USB Charging Cable

Adhesive Metal Discs

General Use:

1. After receiving the product, if the light doesn't turn on, please charge it first. Ensure the battery is fully charged before initial use.
2. Use an adapter with a 5V output to charge this lamp. Do not use a fast charger or adapter with a voltage output greater than 5V.
3. Do not use the light in wet or damp area.
4. Do not use the light in high temperature area.
5. Charge the product regularly to prevent the battery from being fully depleted.
6. When cleaning the lamp, use a soft, dry cotton cloth to avoid scratching the surface.
7. Avoid using abrasive or corrosive cleaners on the lamp's surface to prevent damage or corrosion.
8. Do not place the lamp near high-temperature materials for extended periods, as this could pose a fire hazard.
9. Do not dispose of the product with household waste. Please dispose of electronic products in accordance with local regulations.

Instructions for Use:

1. Magnetic Random Installation:There is a strong magnet at the bottom of the product. Directly put the back of the LED lamp on the metal iron plate.
2. Magnet sheet installation:Please double make sure the position is where you want beforeinstallation,as the double-sided adhesive is unmovable once attached.
   Place the magnetic sheet with release paper on the magnet on the back of the product
   Tear off the release paper on the other side of the magnet sheet, and then paste it to the position to be pasted (wipe off the dust before pasting).
   Check again if the paste is proper and firm.
3. Switch functions:Tap once for sensor mode(light on for 5s), twice for constant mode, thrice to turn off.
   Long press to adjust brightness from 5% to 100%.
4. In induction mode, the light automatically turns on when it senses someone approaching in the dark, and it turns off after no motion is detected for 20 s.
5. Green Indicator Light: Indicates that the battery is fully charged , Red Indicator Light: Indicates that the battery is currently charging.

1. Rated Input :	5V 1A	4. Battery :	600mAh
2. Rated Power :	0.5W	5. Color Temperature :	3000K
3. Charging Time :	2Hours	6. Constant time :	12 Hours
