

Laundry Basket 4 Section

Contact Email: saksunstore@outlook.com

Before beginning the installation process, carefully read through the provided instructions or manual. This will give you a clear understanding of the steps involved and any specific requirements for the installation.

1. Please check the quantity of accessories according to the list first, confirm that you have received all product components, and check if there are any damaged parts.

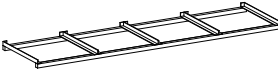

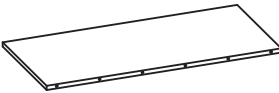

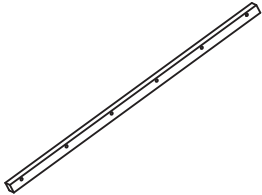

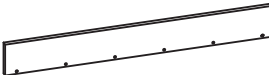

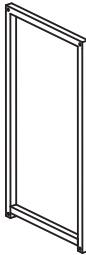

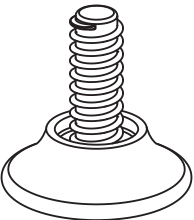

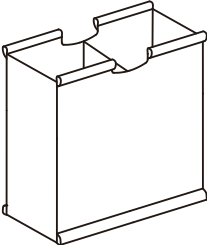

2. Safety precautions: Prioritize safety by ensuring that the installation area is free from potential hazards. Use appropriate safety gear and tools as recommended in the instructions.

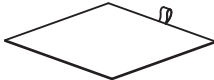

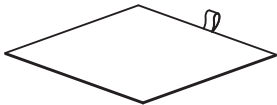

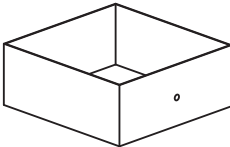

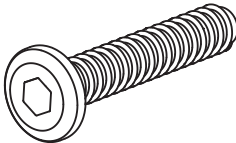

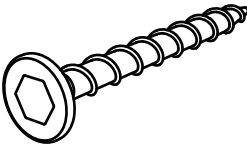

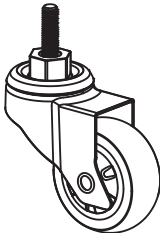

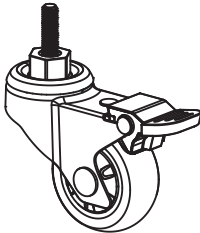

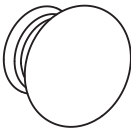

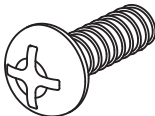

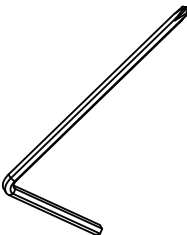

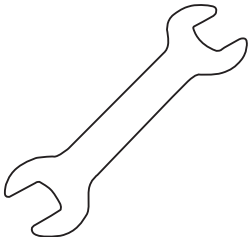

3. Preparation: Prepare the installation site by clearing any obstructions and ensuring that the area is clean and suitable for the installation, this may involve making measurements or adjustments as needed.

4. Power source: If the installation involves electrical components, ensure that the power source is safely turned off before beginning any work, follow proper electrical safety procedures.

5. Testing: Once the installation is complete, test the item to ensure it is functioning as intended, this may involve running diagnostic checks or performing trial runs.

Thank you for choosing our product, if you encounter any problem with the package or the following installation, please email us to saksunstore@outlook.com and attach your "ORDER ID" we will solve any issues for you as soon as possible.
