Floor Lamp

General Guidelines

- Please pay attention to the warning signs.
- Please read the instructions with caution before operating and keep it properly.
- This summary may not include every detail of all variations and considered steps. Please feel free to contact us if further information and help are needed.

Warning

1. Before assembly, place all parts out on a clean flat surface and inspect each part for defects that may have occurred during shipping.
2. Inspect wire insulation for any cuts, abrasions or exposed copper that may have resulted during shipping. If there are any defects in the wire, DO NOT continue assembly. Please send an email to our Customer Service immediately.
3. Consult a qualified electrician if you have any electrical questions.
4. To reduce the likelihood of tipping over, we recommend placing the lamp behind furniture and keep children and pets away.
5. Never drape clothes over the lamp.
6. To prevent children from suffocating and choking, keep them away from packing materials.
7. Please keep this manual and hand it over when you transfer the product.

Specifications

- Product Height: 70.8 IN （180cm）
- Wire Length: 78.7 IN（200cm）
- Input Voltage: 120Vac 60Hz

Parts Included

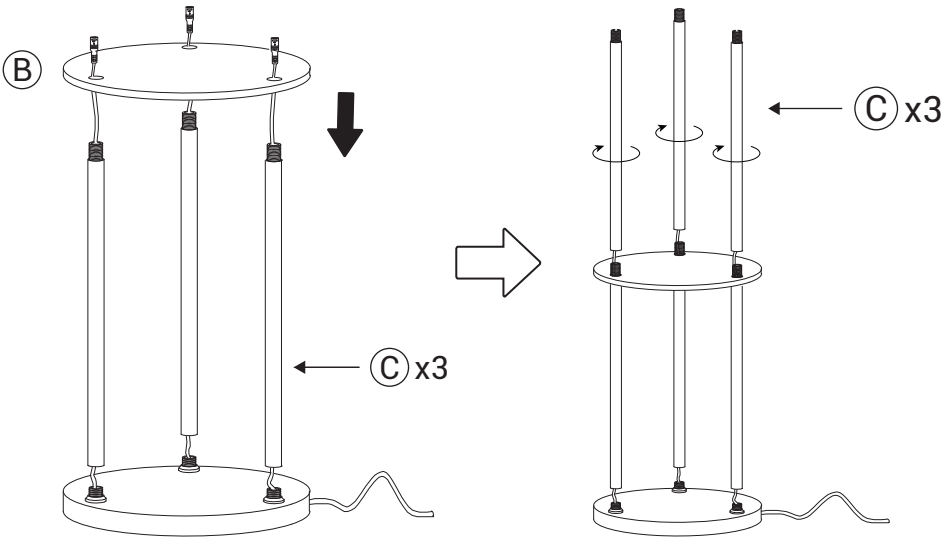

Ⓐx1 	Ⓑx2 	Ⓒx8 
Ⓓx2 	Ⓔx1 	Ⓕx3 Ⓗx3 
Ⓖx3 		

⚠ Please check if the parts are intact before starting the assembly.

①Connect base A to pole C.

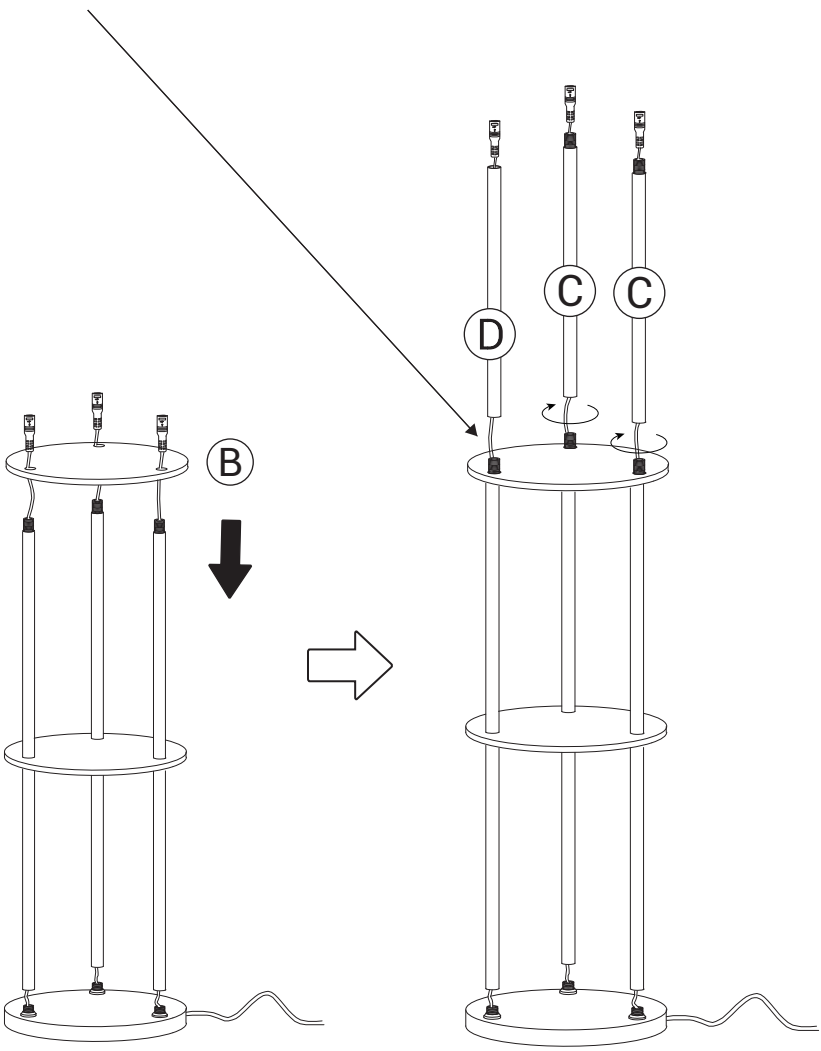

②Place board B on pole C and tighten with pole C.

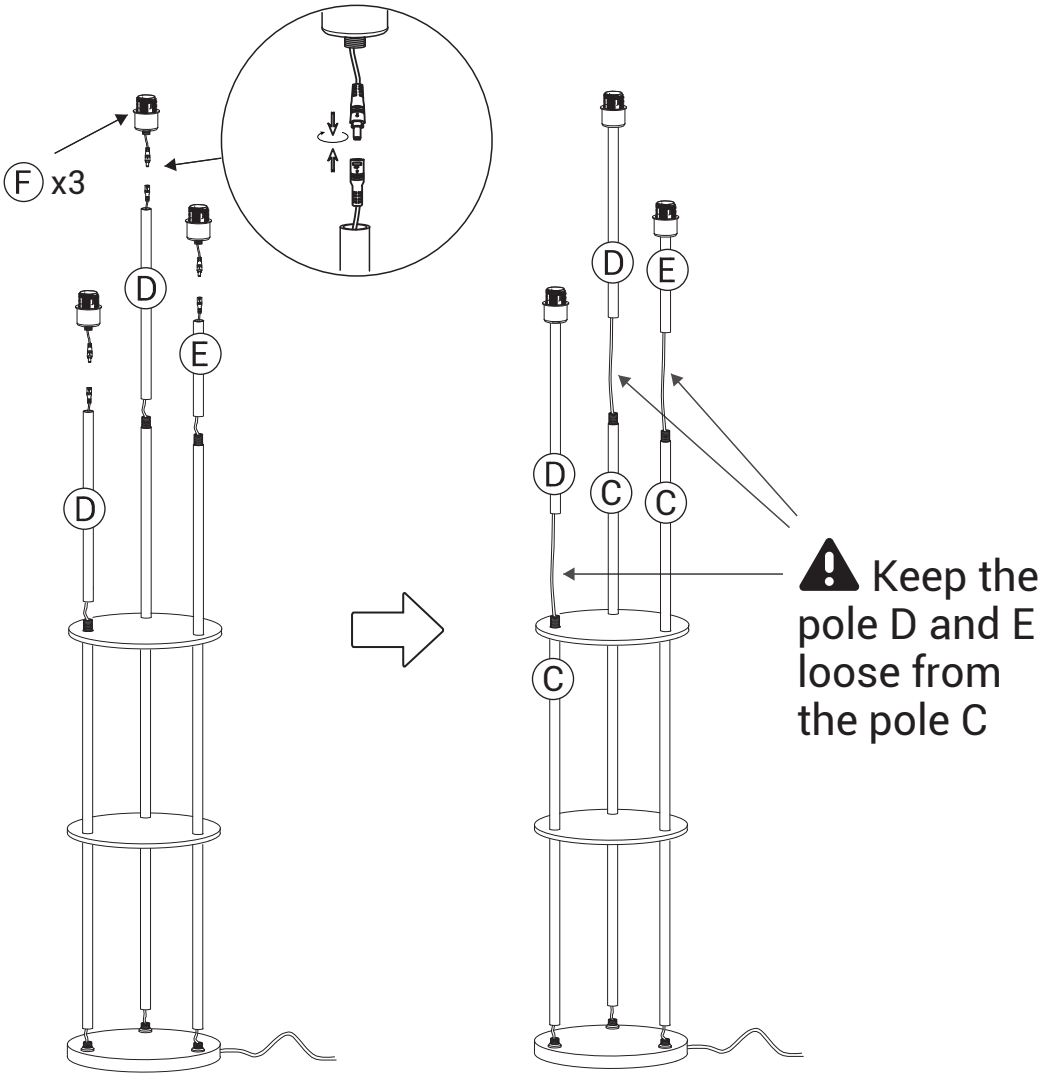

③Repeat step 2

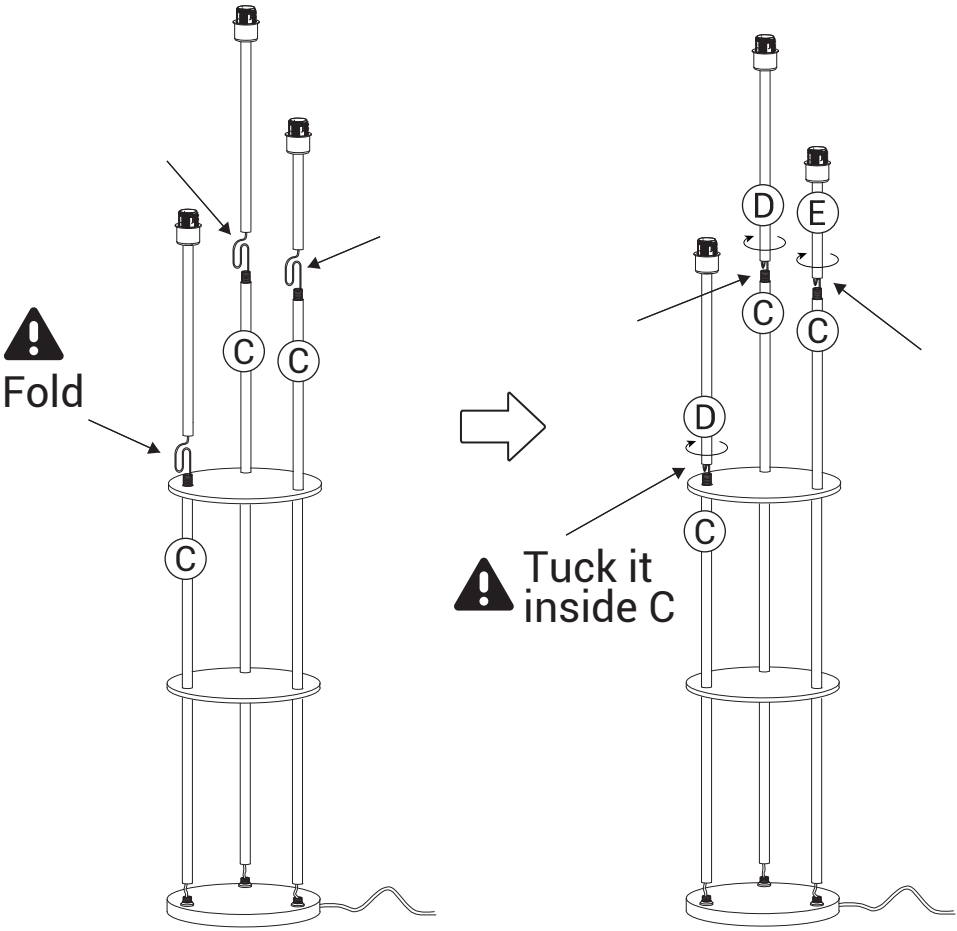

(No need to tighten the pole D).

④Connect socket F and the wire using the quick connector, then tighten F-E and F-D.
(Keep the pole D and E loose from the pole C)

⑤Fold the exposed wires and tuck them inside pole C.
Then tighten pole D-C and E-C.

⑥Place lampshade G on socket F and secure with socket ring H.
⑦Screw in bulb(not included), plug in the power, and press the switch.
