EVERYONE ELSE:

1. Pull up the lever to release the locking mechanism of the stand.

2. Extend both ends of the stand to desired width. The X-style folding system will make adjusting a breeze.

3. Ensure that the pin is locked in place at desired height. You're ready to rock!

4. Install the headphone hook with the circular knob. You can place it either on the left or right side of the X-style stand.

5. The rubber feet that cover the end of the base can be rotated to eliminate wobble that occurs on uneven surfaces.
