

INSTALLATION INSTRUCTIONS

IMPORTANT

Before installing your Lights fixture, please make sure that you carefully read through these instruction sheets. Consider having your fixture installed by a qualified licensed electrician.

NOTE:

The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. This approach must be used by the person(s) caring for and operating the fixture.

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

WHAT WE PROVIDE

- Mounting & Wiring Hardware
- Pendant Lights Fixture and wiring
- Pulley

APPLICATION

1-Light Pendant
