Installation Steps

1

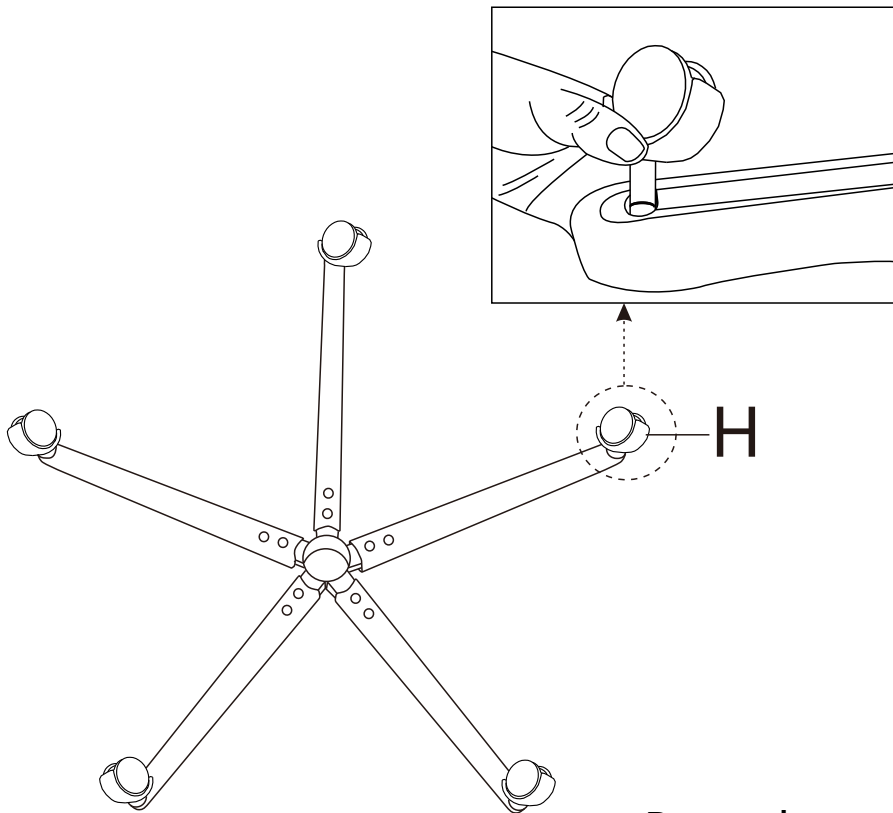

Attach mechanism (D) to the seat (B) with screws (L) .

2

Sleeve each of the parts (F) into part G. Pass the screws (K) one by one through the holes in (F) and (G) and tighten them with allen key (N).

■ 3

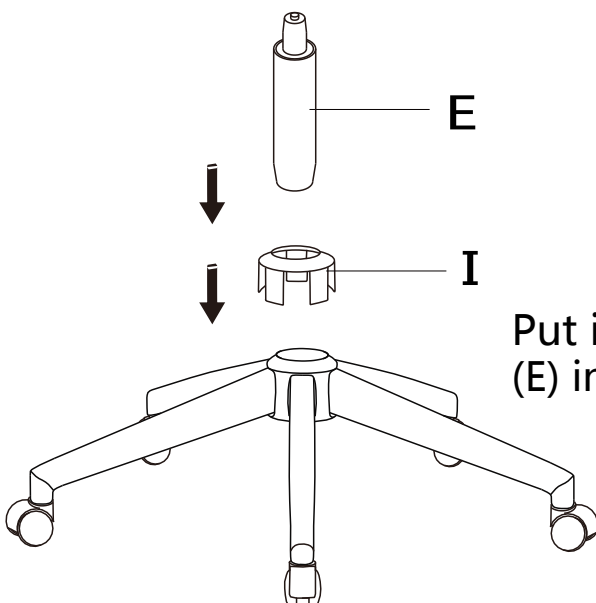

Press the casters (H) into the holes at the end of each leg of the base.

■ 4

⚠⚠⚠ Confirmation of satisfaction with the base, seat section, materials, color and appearance, etc. and confirm that you wish to keep it for use, then you insert the gas lift.

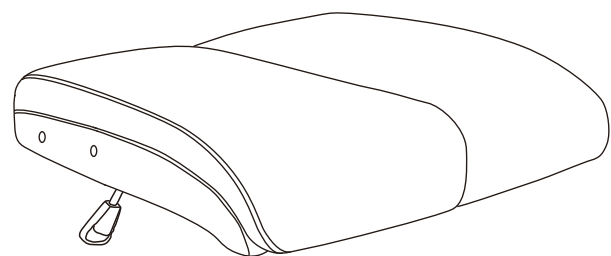

Note that returns will not be easy after this step.

(as the gas lift is hard to remove and stops fitting into its original box, which means it will not be eligible for shipment.) !!!

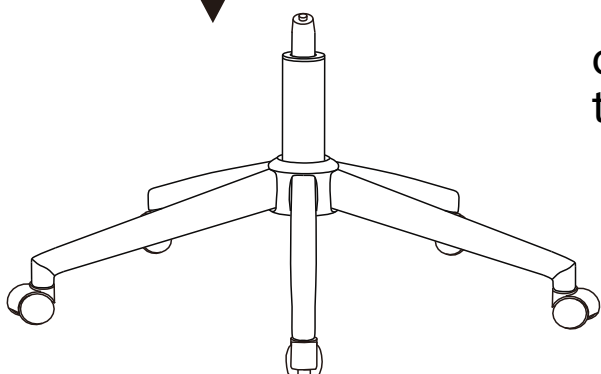

Put in the decorative cover (I), insert the gas lift (E) into the center hole of the Star Base.

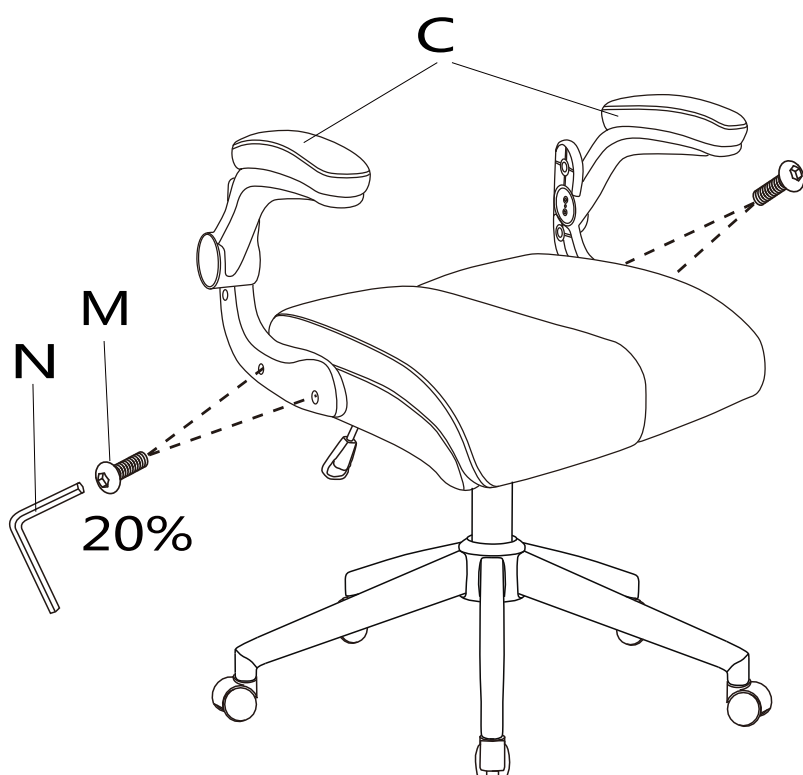

■ 5.

Now turn the assembled seat upright and locate the center hole of the mechanism over the gas lift. Push down firmly until the connection is secure.

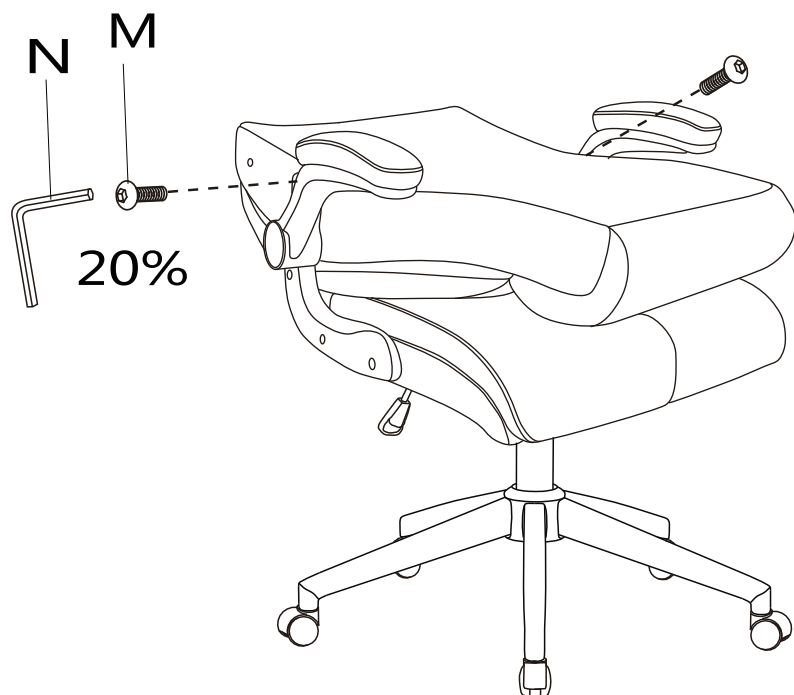

■ 6

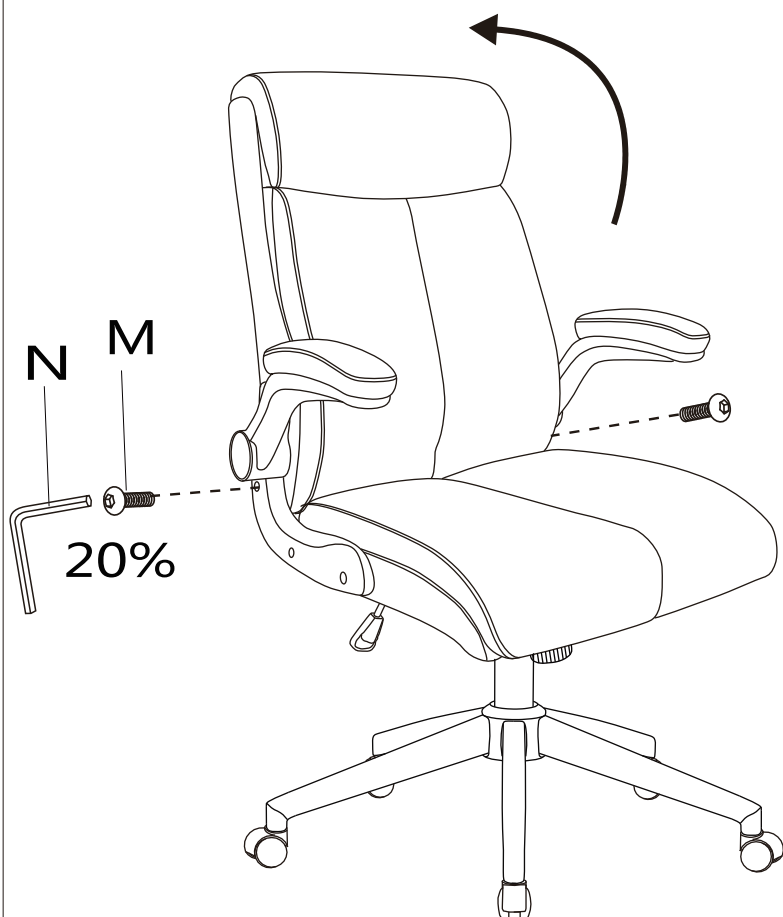

Warning!!!
Don't tighten all screws until the step 7 and step 8 are complete.
