

Q: Is the roof flat or sloped?

A: The roof is flat and weather proof.

Q: Will this work inside, in my basement for fostering cats?

A: You can check the overall height, and then measure the height of your basement. And It comes completely disassembled so you can build it in your basement.

Q: Would this work for small birds?

A: I don't see a reason why not. I think it would be really nice environment for them. The door is adult sized but you ' d risk them getting out when and if it was opened.

Q: What's the overall dimension?

A: The Overall Dimensions is 62.45"L x 32.5"W x 70"H

Q: Could this be used for small Parrots

A: This outside cat enclosure is perfect for single or multiple pets and can house cats, dogs, raccoons, squirrels, foxes, or other small to medium pets.

Q: Can this be painted?

A: Yes, it can be painted, but keep in mind the paint it comes with is already eco-friendly and weather proof, so, you can paint it to your preference.

Q: what it's like with windy weather? is this sturdy?

A: It is sturdy, the weight of this product is 64 lbs, but in a very heavy windy day, you can add a plywood floor to keep it level and that really strengthened the patio, covering it with tarps before the storms, and clearing the snow off the top when you go out to shovel.

Q: Could this be easily disassembled if I wanted to take it, if moving to a new home?

A: Yes, just remove the screws. Be sure to keep the assembly instructions to reassemble.
