

Assembly Instruction Sheet

Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Light Source: (1) A21 Medium Base bulb 150W Maximum.

Estimated Assembly Time: 20-30 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to ensure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

Fixture can only be mounted in the direction indicated on page 2.

⚠ Warnings and Cautions

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal.

Package Contents

A Crossbar Assembly x 1

B Alternate Mounting screw x 2

C Fixture Body x 1

STEP 1 – Remove Styrofoam inside of the Cage

- Unscrew lock screws on the fixture hood by using screwdrivers and remove the cage from the fixture body.
- Carefully remove the Styrofoam inside of the cage.
- Place the cage back onto the fixture body and secure with previously removed lock screws. Tighten until snug with screwdrivers.

Figure 1

STEP 2 – Installing the Crossbar Assembly

- Pass the supply wires through the Crossbar Assembly (A). Attach the Crossbar Assembly (A) to the Outlet Box with the head of the Green Ground Screw facing you. Secure the Crossbar Assembly (A) with Outlet Box Screws (not included). Tighten until snug. Note: Use the Alternate Shorter Mounting Screw (B) if your installation requires a shorter mounting screw.

Figure 2

STEP 3 – Test Fit the Backplate to the Crossbar Assembly

- Remove the mounting balls from the Crossbar Assembly (A). Place the backplate and Fixture Body (C) onto the Crossbar Assembly (A) and secure with mounting balls. Note: The backplate and Fixture Body (C) should be snug against the wall and held tight with the mounting balls. If it is not, adjust the length of the mounting screw or alternate short mounting screw on the Crossbar Assembly (A) by unscrewing the preassembled hex nut and lock washer and then screwing the mounting screws or alternate short mounting screws in or out of the crossbar until the correct length is achieved. Once the backplate and Fixture Body (C) is secure, remove the mounting ball and Fixture Body (C) and proceed to Step 4.

Figure 3

STEP 4 - Wire Connections

- Use standard wire connectors (not included) to make all wire connections. Twist connectors until wires are tightly joined together. Wrap each connection with approved electrical tape and carefully stuff all the connected wires into the Outlet Box.

Thank you for purchasing a product.

STEP 5 – Install the Fixture Body

- A. Position the backplate and Fixture Body (C) onto the Crossbar Assembly (A). Place the holes in the backplate over the mounting screws or alternate short mounting screws. Secure the Fixture Body by using the mounting balls and hand tighten the mounting balls until snug.

Figure 5

STEP 6 – Install the Bulb and Apply Silicone Sealer

- A. Insert the bulb onto socket and screw snugly into place.
B. Make sure the exterior wall surface and fixture backplate are free of dirt before applying caulk. Using exterior grade caulk, caulk over top of backplate and down both sides. Do not caulk the bottom of the fixture backplate to ensure proper moisture drainage.

Figure 6

Your fixture is now assembled and ready to use. Enjoy!

FINISH: PALLADIAN BRONZE

Fixture can only be mounted in the direction indicated

NOTE: ALL DIMENSIONS ARE ROUNDED UP TO THE NEAREST 1/4"

HOW TO REPLACE GLASS PANELS

- A. Unscrew lock screws on the fixture hood by using screwdrivers and remove the cage with glass panels from the fixture body.
B. Unscrew Allen screws from the top edge of the cage and remove the tabs. Replace the broken glass panel with the replacement and attach the tabs back onto the top edge of the cage and glass panel. Secure by threading Allen screws back onto the cage. Tighten until snug with screwdrivers.
C. Place the cage with glass panels back onto the fixture hood and secure with lock screws. Tighten until snug.
