

Complete Range

of Composting and
Worm Farming
Solutions

Consider the many benefits that worm farming and composting have to offer, from enriching gardens to diverting organic matter from landfill.

Product Guide

About Composting

Making compost is the perfect way to recycle organic yard, garden and kitchen waste into a highly nutritious soil conditioner - and it's so easy to do!

Compost is made when micro-organisms feed on organic matter - and break it down into smaller and smaller pieces. When the waste is fully decomposed it forms humus, which is a fantastic natural fertilizer for gardens and yards.

Organisms at work inside the compost bin

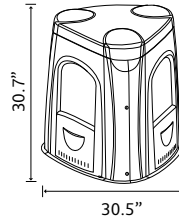

> 63gal Flat Pack Compost Bin

Flat pack solution for suburban composting

Features and Benefits

- Made from 100% recycled UV stabilized plastic
- Flat pack composting solution
- Fitted lid restricts flies from entering
- 3 x access doors for easy compost extraction
- Strong, lightweight and easily portable

Product Code: FP240

Why be sustainable and recycle?

Recycling at home is important because: Approximately 39-45% of household waste and 30% of all the waste we throw away is organic and compostable.

Organic waste (food scraps and garden waste) in landfill breaks down and releases methane, a potent greenhouse gas.

About Worm Farming

Creating a Vermicomposter is a great way to recycle organic kitchen waste into a highly nutritious soil conditioner, plus it's fun and easy for the whole family to get involved.

Worms recycle your leftover food scraps into a dark, soil-like material with a pleasant earthy smell - known as worm castings. They also produce a liquid worm tea, which is a great additive for gardens; giving exceptional color, quality and quantity of fruit, vegetables, flowers and ornamental plants.

Worms at work inside the vermicomposter

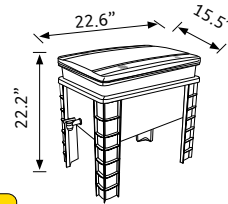

> Worm Bin

The original vermicomposter for serious gardeners

Features and Benefits

- Made from 100% recycled UV stabilized plastic
- 1 x large capacity working tray
- Hinged, fly proof ventilated lid

> Worm Cafe®

The stylish worm farm for patios and gardens

Features and Benefits

- Made from 100% recycled UV stabilized plastic
- Hinged, fly proof lid
- Unique ventilation in working trays and collector tray
- Stylized legs with ant prevention
- Drip free tap

Product Code: 000027

Includes

4 x Legs, Bedding Block, Instruction Manual

Worms are free range, they take nutrients into surrounding soil

About In-ground Worm Farming

Installing an in-ground Worm Farming is the easiest way to recycle your pet and organic kitchen waste into a rich fertilizer.

Worms process the pet and food waste and take it back out into the surrounding soil - so there's no need to harvest finished castings, making it an easy waste disposal system for the time-poor gardener, or those with an urban backyard.

> Worm Feast™

The perfect small space and raised garden bed worm farm

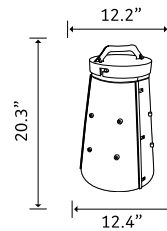

Features and Benefits

- Made from 100% recycled UV stabilized plastic
- Flat pack in-ground solution
- No harvesting required
- Locking Lid

Product Code: WF001

Includes

3 x Sides, 1 x Lid, Instruction Manual

> Pet Poo Worm farm

The Pet lovers way to compost pet poo

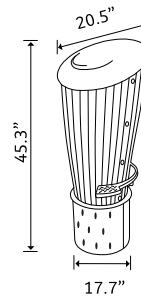

Features and Benefits

- Made from 100% UV stabilized plastic
- Unique insulated walls to withstand cold climates
- Composts up to 8lbs of mixed pet poo and kitchen scraps per week
- No harvesting required
- No mess-no fuss
- Non slip ergonomic foot pedal

Product Code: PPC012

Includes

1 x Bedding Block, Instruction Manual

Did you know?

When setting up your worm farm, only use compost worms. These include "reds," "blues" or "tigers". These worms have a healthy appetite and breed quickly - which is important because you want your kitchen scraps to be eaten as quickly as possible.

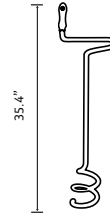

> Aerator

Mix & aerate to compost five times faster

Features and Benefits

- Easy to use, eliminates hard labor-intensive shoveling
- Speeds up composting time
- Aerates and mixes right to the bottom of your compost with ease

Product Code: 000090

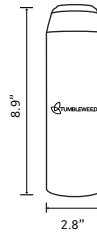

> Worm Farm & Compost Conditioner

Keeps your worm bin & compost sweet and healthy!

Features and Benefits

- Specially selected blend of natural minerals
- Balances pH levels in your worm farm and compost bin
- Neutralizes acidity
- Helps reduce odors & bugs

Product Code: 000019
