

STANDING DESK

ADJUSTABLE HEIGHT STANDING DESK

Seamlessly adjust between sit and stand through the day with the Adjustable Height Standing Desk. With a lever-activated pneumatic air cylinder, you can easily adjust the height between 27.5" and 44.5", smoothly raising monitors, a computer, and other office accessories. Constructed with two sturdy steel legs, reinforced inner legs, and a contemporary teak finish, the Adjustable Height Standing Desk is built to last. With no power outlets required for use, the desk can be flexibly placed within corporate or home offices.

Features:

- Meets ANSI/BIFMA standards
- Available with a 48" or 56" wide desktop
- Lever-activated pneumatic air cylinder easily adjusts anywhere between 27.5" and 44.5" high
- Raises and lowers up to 150 lbs., easily housing a CPU, monitors, and other office accessories
- Constructed with two sturdy steel legs, each reinforced with durable inner legs
- Sturdy, scratch-resistant desktop with a teak finish
- Chamfered edges keep forearms comfortable while typing and working
- Minimal assembly required

Easily adjust the height between 27.5" and 44.5" with lever-activated air cylinder
